## K Lite Kit User Manual

### SAFETY INFORMATION

For a safe and effective use of this product and its accessories, we advise you to read the following instructions in full, and to strictly observe the operating procedures indicated in this manual and refer to the leaflet contained in the packaging of the individual products / accessories.

This product is intended for adult smokers. This product is not recommended for non-smokers, young people under the legal age, pregnant or breast feeding women and those experiencing general ill health.

Keep the product out of reach of children and minors at all times

### WARNINGS FOR TRANSPORT

Do not keep your device in your pocket while switched on to avoid inadvertently activating the vaporization device, causing irreparable damage.

### COMPONENTS OF THE PRODUCT

This product is a high-tech product and its components such as the battery, the micro USB cable, and the tank part have been specifically made for this product. We recommend the exclusive use of components and / or accessories not specifically produced for this device may lead to a malfunction and / or damage to the product and to the cancellation of the guarantee.

### WARNINGS BEFORE USE

Products with an internal battery leave the factory already fully charged. Do not recharge it until the remaining charge indicator gives the low battery signal. (See Instructions). The use of an empty, dry or drained tank/pod can cause immediate damage to the internal resistance and the consequent cancellation of the guarantee.

### WARNINGS WHILE DRIVING

While driving, be sure to strictly observe the laws and regulations of the country where you are located; stay focused on driving and pay attention to traffic conditions. Do not use this product while driving a vehicle and keep it separate from other objects in order to avoid damage from bumps.

1

### GENERAL WARNINGS AND LIMITATIONS OF USE

- Do not bring your vape device into contact with water or other liquids. Avoid exposing the device to too high or too low temperatures (-5 °C / 50 °C). Avoid using the product in overheated or excessively damp environments. Keep the product and its accessories away from heat sources. Use only Aspire original spare parts and accessories. Always discharge the battery completely before recharging. Carefully read the composition of the e-liquid before use, and do not use the product if you are allergic to any of the components of the e-liquid. Do not use the product if you suffer from respiratory and / or cardiovascular system disorders. Do not use the product during pregnancy or lactation.
- Do not ingest or swallow any part of the product or its accessories and do not try to open or tamper with the components of the product or its accessories. The device does not need any flame to light it. To avoid performance losses, disconnect the battery from the USB charger when fully recharged, and in the case of anomalies, smell of burnt or abnormal deformation of one of the components of the device or its accessories, stop using it immediately and contact Customer Care.
- Avoid direct contact of the e-liquid with the mouth which could happen if you inhale too strong and too frequently or if the tank is too full.
- Avoid any unauthorized operations that may damage the product. For an optimal performance of your vape device, it would be advisable to spend at least 30 seconds between one inhalation and the next. We recommend only to use the Aspire wall charger supplied to charge this device and not attempt to recharge the device with any other type of charger. We don't recommend using the product while charging.
- Keep the product and its accessories out of reach of children, and dispose of the product components at dedicated collection/disposal points. Do not discard this product in the environment.

2

### Pack Contents:

- 1\* K Lite mod
- 1\* K Lite tank
- 2\* Nichrome coils (1.6Ω & 1.8Ω preinstalled)
- 1\* USB cable
- 1\* Warranty card
- 1\* User manual

### Tank Features

- Easy top fill
- Child lock mechanism
- 2ml capacity
- Adjustable airflow
- Leak-free refill system
- Coil resistance:
  - 1.6Ω (3.0-4.2V) (6-11W)
  - 1.8Ω (4.2-5.0V) (9-13W)
- Coil material: Nichrome
- Tank is compatible with aspire original BVC coils and Spryte coils

3

Diameter: 16mm  
Length (including drip tip): 59.5mm

### Tank Filling

1. Unscrew the top hardware and remove it from the tank;
2. Add your preferred e-liquid by pushing the tip of your filling bottle through the filling hole;
3. Put the top hardware back on top of the tank then screw to secure it.

- When installing a new coil, let the tank stand for 5 minutes after filling so the cotton can be saturated with e-liquid before use.
- Do not let the tank become completely empty. Refill the tank to avoid dry burning or damage to the coil.

### Coil Installation

1. Invert the tank, push down the base hardware and unscrew to disengage it;
2. Push and unscrew to remove the used coil and also push and screw to install a new one;
3. Push down and screw in to relocate the base hardware.

*Note: The pressing and twisting operations in each step are performed simultaneously.*

4

### Mod Specifications

Optional output voltage: 3.0V, 3.5V, 4.0V, 4.5V, 5.0V  
Supported resistance range: 0.8-3.0Ω  
Continuous firing time: 10 seconds  
Firmware update: N/A  
Battery type: Built-in LiPo  
Battery capacity: 900mAh  
Dimensions: 26.5\*75\*17mm

### Instructions

#### • Power on/off

Pressing the fire button 5 times within 2 seconds will turn the device on or off. The indicator light will flash white 3 times to indicate on or off.

#### • Vaping

When the device is on, press the fire button, the indicator light will indicate your device's current charge. When its current charge is above 3.8 volts (60-100%), the indicator light will be green. When the charge is between 3.5 and 3.8 volts (30-60%), the light will be blue. When the charge drops below 3.5 volts (0-30%), the light will then turn red to remind you that it is time to charge the device.

#### • Set the output voltage

Press the mode button to adjust the output voltage. The voltage display will turn on for 3 seconds to indicate the value of the corresponding output voltage: 3.0V, 3.5V, 4.0V, 4.5V, 5.0V.

### Protection Features

- Automatic cutoff: The preset continuous fire time is 10 seconds, after 10 seconds of continuous firing, the indicator light will flash pink 10 times and the device will stop firing.
- Short circuit protection: When the device detects a short, it will stop firing, and the indicator light will flash pink 3 times.
- Low voltage protection: When the battery level drops below 3.0V, the device will not function and the indicator light will flash red 15 times to remind you to charge the device.
- Overcharge protection: When the battery is fully charged, it will stop charging to prevent overcharging of your battery.
- Over heat protection: When the temperature of the chip is above 75 °C/167 °F, the indicator light will be yellow for 3 seconds and the device will cut off.

5

### Charging Instructions

- Charging the device via Micro USB charging port, the maximum current can reach up to 1A, and the recommended charging voltage is 5.0V.
- When the USB cable is attached, the indicator light will flash red 3 times. While charging, the indicator light will indicate the device's current charge status: 3.5 volts or less (0-30%) = red light; 3.5 to 3.8 volts (30-60%) = blue light; 3.8 volts and above(60-100%) = green light. When the device is fully charged, the indicator light will flash green 20 times then remain off. When unplug the USB cable, the indicator light will flash green 3 times.

### IMPORTANT INFORMATION ABOUT USING NICOTINE CONTAINING E-LIQUIDS

Before using nicotine containing e-liquids the user should read the following information carefully.

### NICOTINE CONTAINING E-LIQUIDS:

Do not use if you are allergic to nicotine or any of the other ingredients contained within the e-liquid (see manufacturer's label for full details).

### WARNINGS AND PRECAUTIONS

- Nicotine containing e-liquids are not recommended for:
- Non-smokers
  - Young people under the legal age;
  - Pregnant or breast feeding women; as nicotine is known to cross the placenta and to be excreted in breast milk;
  - Those experiencing general ill health; such as heart disease, stomach and duodenal ulcers, liver or kidney problems, long term throat disease or difficulty breathing due to bronchitis, emphysema or asthma;
  - Those who have an overactive thyroid gland or have a pheochromocytoma (a tumour of the adrenal gland that can affect high blood pressure);
  - Those who have diabetes, as nicotine may affect your blood sugar levels.
  - Those taking the following medication;
    - Theophylline (to treat breathing problems)
    - Ropinirole (to treat restless leg syndrome)
    - Clozapine (to treat schizophrenia)

6

### POSSIBLE SIDE EFFECTS

If you inhale too much nicotine or use the product too much you may experience one or more of the following effects:

- Feeling faint;
- Nausea (feeling sick)
- Headache
- Coughing
- Irritation of the mouth or throat
- Dizziness
- Stomach discomfort
- Hiccups
- Nasal congestion
- Vomiting (being sick)
- Heart palpitations
- Abnormal heart rate

If you experience any of these side effects; including any possible side effects not listed in this leaflet, discontinue using the product, if the effect(s) continue after you stop use, consult your doctor or healthcare professional and bring this leaflet to their attention.

### Safety note:

To avoid misfiring always ensure you either lock or switch off your device when it is not in use. Especially when carrying your device in your pocket, bag or purse.
