

Nautilus GT Kit User Manual
Innovate the way
you vape

SAFETY INFORMATION

For a safe and effective use of this product and its accessories, we advise you to read the following instructions in full, and to strictly observe the operating procedures indicated in this manual and refer to the leaflet contained in the packaging of the individual products / accessories.

This product is intended for adult smokers. This product is not recommended for non-smokers, young people under the legal age, pregnant or breast feeding women and those experiencing general ill health.

Keep the product out of reach of Children and minors at all times

WARNINGS FOR TRANSPORT

Do not keep your device in your pocket while switched on to avoid inadvertently activating the vaporization device, causing irreparable damage.

COMPONENTS OF THE PRODUCT

This product is a high-tech product and its components such as the battery, the micro USB cable, and the tank part have been specifically made for this product. We recommend the exclusive use of components and accessories indicated. Use of components and / or accessories not specifically produced for this device may lead to a malfunction and / or damage to the product and to the cancellation of the guarantee.

WARNINGS BEFORE USE

Products with an internal battery leave the factory already fully charged. Do not recharge it until the remaining charge indicator gives the low battery signal. (See Instructions). The use of an empty, dry or drained tank/pod can cause immediate damage to the internal resistance and the consequent cancellation of the guarantee.

WARNINGS WHILE DRIVING

While driving, be sure to strictly observe the laws and regulations of the country where you are located; stay focused on driving and pay attention to traffic conditions. Do not use this product while driving a vehicle and keep it separate from other objects in order to avoid damage from bumps.

GENERAL WARNINGS AND LIMITATIONS OF USE

Do not bring your vape device into contact with water or other e-liquid. Avoid exposing the device to too low or too high temperatures (-5 °C / 50 °C). Avoid using the product in overheated or excessively damp environments. Keep the product and its accessories away from heat sources. Use only Aspire original spare parts and accessories. Always discharge the battery completely before recharging. Carefully read the composition of the e-liquid before use, and do not use the product if you are allergic to any of the components of the e-liquid. Do not use the product if you suffer from respiratory and / or cardiovascular system disorders. Do not use the product during pregnancy or lactation.

Do not ingest or swallow any part of the product or its accessories and do not try to open or tamper with the components of the product or its accessories. The device does not need any flame to light it. To avoid performance losses, disconnect the battery from the USB charger when fully recharged, and in the case of anomalies, smell of burnt or abnormal deformation of one of the components of the device or its accessories, stop using it immediately and contact Customer Care.

Avoid direct contact of the e-liquid with the mouth which could happen if you inhale too strong and too frequently or if the tank is too full. Avoid any unauthorized operations that may damage the product. For an optimal performance of your vape device, it would be advisable to spend at least 30 seconds between one inhalation and the next. We recommend only to use the Aspire wall charger supplied to charge this device and not attempt to recharge the device with any other type of charger. We don't recommend using the product while charging.

Keep the product and its accessories out of reach of children, and dispose of the product components at dedicated collection/disposal points. Do not discard this product in the environment.

This product is a high-tech product. We recommend the exclusive use of components and accessories indicated. We do not recommend using this product with other brands of mods.

CONTENTS:

- 1* Glint Mod (18650 Battery Not Included)
- 1* Nautilus GT Tank (2 ml)
- 2* Coils:
 - 1* 0.7Ω Nautilus 2S Mesh Coil (Preinstalled)
 - 1* 1.6Ω Nautilus BVC Coil
- 1* Warranty Card
- 1* User Manual
- 1* Type-C Cable
- 1 Set Of O-rings

COMPONENTS VIEW:

TANK FEATURES:

Very easy top fill
Tank capacity: 2.0 ml
Bottom adjustable airflow
Coil parameters:
Nautilus BVC coil 1.6Ω
Nautilus 2S mesh coil 0.7Ω (preinstalled)
Great vapor and flavor production
Diameter: 24.0 mm
Length (including mouth piece): 53.2 mm

MOD SPECIFICATIONS:

Battery type: single 18650 high rate discharge battery
Output wattage range: 1-75W
Support resistance: 0.1-3.5Ω
Adjustable continuous fire time: 1-15S
Screen: 0.91 inch OLED screen
Type-C charging port
Output mode: wattage output
Dimensions: 25*45*80 mm
Note: battery not included

COIL INSTALLATION:

1. Invert the tank and unscrew to remove the base hardware.
2. Detach the used coil and change it with a new one.
3. Screw the base hardware back onto the tank.

TANK FILLING:

1. Twist the top cap anticlockwise, when the dots on the top cap are aligned with the dots on the top hardware, you can remove the top cap.
2. Add your preferred e-liquid through the filling hole.
3. Put the top cap back into place then twist clockwise firmly.

TANK TUBE REPLACEMENT:

1. Unscrew to remove the top hardware.
2. Remove the used tank tube from the hollow metal sleeve and put a new tank tube back.
3. Screw the top hardware back onto the tank.

BATTERY INSTALLATION:

INSTRUCTIONS:

1. Click the fire button 5 times within 2 seconds to lock or unlock the mod, when the mod is locked, the screen will display "LOCKED CLICK 5X" for 3 seconds then remain off.
2. Pressing the fire button for 2 seconds in locked mode will turn the system off, to turn it back on, press the fire button 5 times rapidly.
3. When the device is on, click the fire button 3 times quickly will turn on/off the screen, when the screen is off, the "+" and "-" buttons are not functioning, only the fire button works.

PARAMETER SETTINGS:

1. Press "+"/"- button to adjust the wattage value. Press the "+"/"- button above 0.5S, the value will change rapidly.
2. Pressing fire button and "-" button simultaneously will lock or unlock keys, when the keys are locked, the "+" and "-" buttons are not functioning, only the fire button works.
3. When the screen display "OVER 10S", press "+"/"- button to adjust the continuous fire time between 1 and 15 seconds.

SAFETY FEATURES:

1. Automatic Cutoff: The preset continuous fire time is 10 seconds, after 10 seconds of continuous firing, the device will stop firing and the screen will display "OVER 10S" for 5 seconds.
2. Open Circuit Protection: When the connected resistance is above 9.99Ω or the tank is not connected to the mod, press the fire button, the device will not function and the screen will display "NO ATOMIZER" for 5 seconds.
3. Short Circuit Protection: When the device detects a short, it will stop firing, and the screen will display "SHORTED" for 5 seconds.
4. Low Voltage Protection: When the battery level drops below 3.3V, the device will not function and the screen will display "LOW BATTERY" for 5 seconds to remind you to charge it.
5. Overcharge Protection: When the device is fully charged, it will stop charging to prevent overcharging of your battery.
6. Overheat Protection: When the temperature of the chip is above 75°C/167 °F, the screen will display "TOO HOT" for 5 seconds and the device will cut off.
7. Low Resistance Protection: When the resistance of the connected coil is lower than 0.1Ω, the screen will display "LOW RES" for 5 seconds and the device will stop firing.
8. High Resistance Protection: When the resistance of the connected coil is over 3.5Ω, the screen will display "CHECK ATOMIZER" for 5 seconds and the device will stop firing.
9. Battery Reverse Protection: When the mod detects that the battery is incorrectly installed or that the battery has been damaged, it will stop charging and the screen will turn off. You will need to install the battery correctly or replace it for a new one.

CHARGING:

1. Charging the mod via Type-C charging port, the maximum charging current can reach up to 2A.
2. When connecting the mod to the charger, the screen will display a growing battery icon. Once the battery level reaches 4.2V or when it's fully charged, the mod will stop charging, the screen will shut off.

3. To accomplish 2A charge current, we recommend to use a wall adapter with an output of 5V/2A.

4. We recommend using only the supplied cable to charge your mod.

5. When the mod detects the charging voltage is over 5.3V or lower than 4.8V, it will stop charging and the screen will display "CHECK CHARGER" for 5 seconds to remind you to check the charger.

6. If you press the fire button while charging, the battery will stop charging to ensure safety.

IMPORTANT INFORMATION ABOUT USING NICOTINE CONTAINING E-LIQUIDS

Before using nicotine containing e-liquid the user should read the following information carefully.

NICOTINE CONTAINING E-LIQUID:

Do not use if you are allergic to nicotine or any of the other ingredients contained within the e-liquid (see manufacturer's label for full details).

WARNINGS AND PRECAUTIONS:

- Nicotine containing e-liquid are not recommended for:
- Non-smokers
 - Young people under the legal age;
 - Pregnant or breast-feeding women; as nicotine is known to cross the placenta and to be excreted in breast milk;
 - Those experiencing general ill health; such as heart disease, stomach and duodenal ulcers, liver or kidney problems, long term throat disease or difficulty breathing due to bronchitis, emphysema or asthma;
 - Those who have an overactive thyroid gland or have a pheochromocytoma (a tumor of the adrenal gland that can affect high blood pressure);
 - Those who have diabetes, as nicotine may affect your blood sugar levels.
 - Those taking the following medication;
 - Theophylline (to treat breathing problems)
 - Ropinirole (to treat restless leg syndrome)
 - Clozapine (to treat schizophrenia)

POSSIBLE SIDE EFFECTS:

- If you inhale too much nicotine or use the product too much you may experience one or more of the following effects:
- Feeling faint;
 - Nausea (feeling sick)
 - Headache

- Coughing
- Irritation of the mouth or throat
- Dizziness
- Stomach discomfort
- Hiccups
- Nasal congestion
- Vomiting (being sick)
- Heart palpitations
- Abnormal heart rate

If you experience any of these side effects; including any possible side effects not listed in this leaflet, discontinue using the product, if the effect(s) continue after you stop use, consult your doctor or healthcare professional and bring this leaflet to their attention.

SAFETY NOTE:

To avoid misfiring always ensure you either lock or switch off your device when it is not in use. Especially when carrying your device in your pocket, bag or purse.

WARNINGS FOR REPLACEABLE BATTERIES:

- Do not use non-rechargeable batteries.
- Do not use damaged batteries or batteries with a torn or damaged wrapper.
- Dispose of used or leaking batteries at a dedicated collection/disposal point.
- Replaceable batteries are not included in the package.
