Started off with a random find of home bakers on IG, and found Bread & Butter. The owner Xin Ying was in the home-bake business then and we started off with a small order for an office team meeting. Love the flexibility to customise, be it menu, packaging and even the extra mile effort to help with delivery. Love the brownies, honey butter biscuits and lots more. More orders were made with our bigger events and our staff really enjoyed them, the bakes were snapped up fast. Glad to see the business expanded to a unit in the CBD area.

PRUDENTIAL

Have been working with Bread & Butter since they started back then as an online business, until now with them having a physical store. They are always consistent - both in the quality of the bakes and service rendered from the ordering process all the way to the delivery. Highly recommended. Good variety of delicious bakes which are also visually appealing

We engaged Bread & Butter's services to cater pastries for a roadshow across 5 locations/days. The service was great, and logistically everything went smoothly. But most importantly, the bakes were extremely well received. Clients were raving about how good they were, coming back for second and third helpings! I would gladly recommend XY's bakes to anyone - whether be for an event or just for your afternoon snack.
