ENJOY ECONOMICAL HIGH-YIELD PRINTING

With Canon's MegaTank ink technology, the Pixma G3690 can print up to 6,000 black pages and 7,700 colour¹ pages from the included ink, minimizing the risk of running out. Its Economy mode further reduces ink consumption, achieving yields of up to 7,600 black and 8,100 colour pages².

AUTO DOUBLE SIDED PRINTING

Avoid the hassle of turning pages over and help save paper with auto double sided printing. Documents can be reduced in half with double sided printing, and make it easier to store large amounts of documents.

FILL AND MAINTAIN

The large refillable ink tanks are designed for quick, mess-free refills. Each non-squeeze bottle has a unique nozzle to prevent colour mix-ups. The PIXMA G3690 MegaTank features a user-replaceable print head and maintenance cartridge, allowing easy maintenance and minimizing downtime for printing.

ACHIEVE SIMPLE SETUP WITH WIRELESS CONNECTIVITY

Printing, scanning, copying and connecting to the cloud has never been easier – simply connect to the Canon PRINT app or PIXMA Cloud Link to get underway. You can also print wirelessly directly from your mobile devices such as your smartphone, tablet, or laptop via AirPrint (iOS) or Mopria (Android)³.

¹Approx. yields are based on Canon original method using test patterns ISO/IEC 24712 (Colour chart). The estimated page yields are determined not based on the initial set of bundled ink bottles, but based on subsequent sets of ink bottles after print head nozzles have been filled with ink from the initial set of ink bottles. Black and colour page yields are not to be combined. Page yields varies significantly depending on contents printed and other factors.

²Economy mode plain paper Page Yield is an estimate.

³AirPrint and Mopria are available for download via the Apple Store (iOS) and Play Store (Android).

MegaTank | DISCLAIMERS

*1: Ink droplets can be placed with a pitch of 1/4800 inch at minimum.

*2: Document print speeds are the averages of ESAT (Word, Excel, PDF) in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

*3: Copy: When copying ISO/JIS-SCID N2 (printed by inkjet printer) on A4 size plain paper using default settings. Specifications are subject to change without notice.

*4: The performance of the printer may be reduced under certain temperature and humidity conditions.

*5: For the temperature and humidity conditions of papers such as photo paper, refer to the paper's packaging or the supplied instructions.

*6: Acoustic Noise is measured based on ISO7779 standard with default setting.

*7: Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-Shirt Transfer, Photo Stickers

*8: *The following media does NOT support borderless printing. : High Resolution Paper, T-Shirt Transfer, Photo Stickers

*9: TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager comes with the operating system.

*10: Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.

*11: Resolution may be changed between Direct print and printing from PC.
