

SALON EXCELLENCE
ritual

The moments that every woman dedicates to self-care are sacred, that is why K-time has always studied precious rituals suitable for every type of hair. Unique fragrances and subtle scents inebriate you from the moment you wash and take you on a journey of the mind.

A relaxing massage and gentle gestures relieve tension and promote the penetration of the active ingredients. K-time has created a personalized beauty routine in four steps: nourish, repair, protect and sublimate the hair with carefully developed formulas and techniques to achieve restored and extraordinarily radiant hair.

SALON EXCELLENCE *ritual*

These steps constitute the targeted treatment carried out in the salon and also suggest the most suitable routine to be repeated at home with K-time products.
