# INTELLIGENT REFRIGERANT RECOVERY MACHINE

The THINKCAR AC 100 is equipped with cutting edge technology that ensures swift and efficient refrigerant recovery. With dual freon support and advanced oil management, A/C service has never been more efficient.

## DUAL REFRIGERANTS

- Supports R134A and R1234yf
- High & Low Pressure Pumping
- Advanced Recharging
- Full Flushing & Recovery

## OIL DISCHARGE

Supports dual-oil containers for new and old oil distinction.

\* The built-in micro printer is perfect for printing invoices/receipts hassle-free.

# ROBUST PROGRAMMING POWER SUPPLY UNIT

The THINKPPS 150 is a professional reprogramming power supply tool used to maintain vehicles' battery health. Whether its recharging, jump starting, or repairing, this endlessly powerful tool is the best addition to battery diagnostics.

\* Casing has high ventilation to provide protection against overheating.

## MAIN FUNCTION

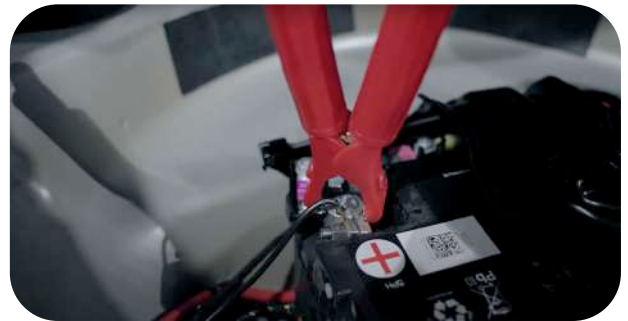

Provides stable power and assists the vehicle's electronic modules through programming and decoding.

## FAST CHARGING MODE

Outputs quick charging to AGM, GEL, EFB, and ordinary batteries, while automatically adjusting the voltage for appropriate charging.

## ACTIVATION & REPAIR

This device uses cutting-edge technology to activate and repair batteries that are old, idle, damaged, or sulfated.

## FEATURES

- Programming Power
- Showroom Charging
- Battery Jump Start
- Live Data Display
- Automatic Voltage
- Safe & Easy Operation

## SPECIFICATIONS

- 20A~12V Charge Current
- 400A~12V Start-Up
- 10.8V~15V Voltage Range
- 20W Open Circuit
- Durable Metal Casing
- 16 Foot Battery Clips
