

## HUSQVARNA 530iPX

Agile and lightweight battery-powered forestry clearing saw with truly professional performance. Offers high chain speed plus balance, lightness and low vibration for easy, precise work free from noise and direct emissions. Especially suited for uneven and dense terrain where superior freedom of movement is needed.

### Battery through body design (Pat.pend.)

Smart battery pack position, placed horizontally through the body of the machine. Reduces the risk of having dirt, chips, dust and water accumulate in the battery compartment, causing connector issues. Also, it means the weight of the battery can be placed in or near the desired center of gravity and in the rotational axis of the product, resulting in increased maneuverability. The through body design also offers a high degree of flexibility since it allows battery packs of different sizes to be used.

### savE™

Choose between normal or savE™ mode, depending on conditions, for maximum power or maximum runtime. Either way, you'll always get a perfect result.

### Weatherproof (IPX4)

This battery-powered Husqvarna machine fulfils the IPX4 classification for rain resistance. This makes it a long-lasting and reliable tool that can be used all year round in all weather conditions.

### Intuitive key pad

The key pad is very easy to operate.

## FEATURES

- Weatherproof (IPX4) - Use in all weather conditions
- Choose savE™ mode for maximum runtime
- Smart battery pack position, placed horizontally through the body of the machine.
- The key pad is very easy to operate.
- In-house developed brushless motor provides a high and consistent torque.
- Ergonomic handle with easy access to the controls.
- A harness relieves weight for both arms and shoulders and provides a less strenuous working position.
- Fast, smooth cutting
- Rear impact guard
- Low noise level for a pleasant work environment
- Low maintenance and less downtime
- Allows you to quickly switch the same battery between different product applications and keep working.
