EXPERIENCE THE POWER *of the* RARE AND THE BEAUTIFUL

CERAMIC VASE 696 - BLACK

Vase 696 is an extraordinary work that combines ceramic and fiber creating an intriguing juxtaposition, drawing inspiration from the interplay of the materials. Within the work by artist Karen Gayle Tinney, the two materials never live alone, relying on each other for structure and completeness. The fiber components are incorporated where the ceramic leaves off; completing the shape or acting as the physical connection between incomplete parts. Each piece is meticulously crafted by the artist in her studio; some pieces taking months to complete.

DIMENSIONS

13.5"H x 4"W

COUNTRY OF ORIGIN

USA

MATERIAL & COLOR

Ceramic, black color, glazed finish. Fiber fringe in black.

CARE

Products are recommended for indoor, decorative use. Vases will hold water, but take care with the fiber areas to not get them wet. If fringe becomes tangled or needs straightening, use a hair comb to gently arrange the fibers. Hold the fringe where it's attached to the ceramic and gently comb, careful not to snag or pull the fibers.
