BRAZILIAN SOAPSTONE QUINTETO SCULPTURES

Form and materiality take center stage with these sculptures, born from the image of a musical ensemble. Soapstone is skillfully milled into graceful geometric shapes that form a harmonious unity despite their differences in shape and size. Decorated with brass elements, the interplay between contrasting materials creates an intriguing juxtaposition of masculine and feminine.

MATERIAL & COLOR

Brazilian Soapstone, Brass Decorative Accent - Soapstone is a natural, delicate, soft, and porous rock. The color of soapstone can vary from a gentle beige to bright blue, silvery grey, and even warm pink tones. Darker color veins run through the stone forming a unique pattern to each piece.

CARE

Scratches can be easily removed by gently sanding and polishing the area with a fine grit sandpaper.
