L-SHAPED MASSAGE TRACK + INVERSION STRETCH

+

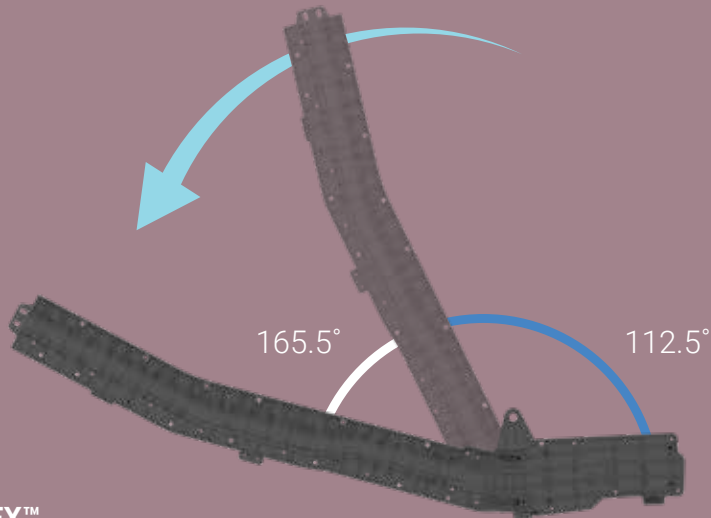

L-SHAPED MASSAGE TRACK

A 49" L-shaped track runs from the top of the shoulder to the upper thigh.

INVERSION STRETCH

An Inversion stretch offers a full-body therapeutic stretch that reduces pressure and relieves back pain.

HYBRIFLEX™

New Combination Design

HybriFlex™

FLEXIBLE MASSAGE TRACK

HybriFlex™, the innovative bendable massage track, makes a further reach and deeper inverted bend possible for the first time. Users get the deepest, most natural muscle stretch of any chair on the market.

FullBodyReach™

MULTISTROKE 6-ROLLER SYSTEM

The FullBodyReach™ MultiStroke 6-Roller System is the result of a totally new massage roller design that separates the upper and lower massaging arms. One focuses on the upper back, shoulders, and neck using 3D massage rollers, and the other simultaneously massages the lower back and legs.

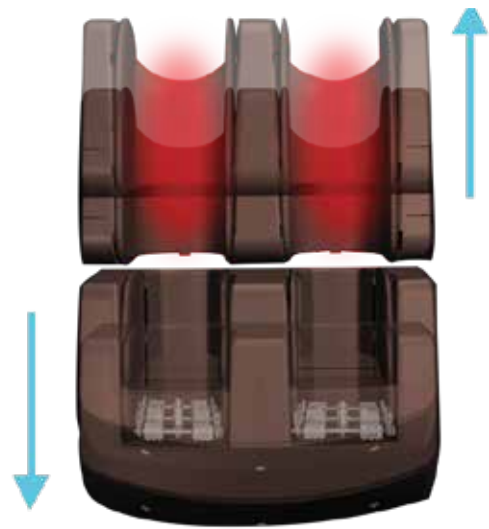

2 UPPER MESSAGE ROLLERS

- 25" of coverage from neck to mid-back
- Extends 3" for a deep 3D massage

4 LOWER MESSAGE ROLLERS

- 35" of coverage from mid-back to thighs
- Syncs movement with upper rollers

Patented Legrest

MORE CALF COVERAGE

The all-new patented legrest offers a heated knee massage, a calf massage, and ankle & foot massage with triple reflexology rollers.

Enjoy an innovative holistic treatment that combines stretching, heat, compression massage, and reflexology.

The reflexology massager targets three zones on the soles of the feet to massage and stimulate pressure points.

50 Airbags

FULL BODY COMPRESSION MASSAGE

50 built-in airbags use compression technology to massage muscles in the arms, shoulders, waist, legs, and feet.

Precisely programmed to rhythmically inflate & deflate, the layered airbags give a gentle yet effective compression massage that treats muscles of the arms, legs, and hips.

Upgraded Controllers

ADJUST WITH A TOUCH

The new touchscreen controller is mounted in easy reach, and the display dynamically changes as you use the chair. It's easy to get a professional full-body massage by touching one of 36 expertly crafted massage sessions.

The chair's armrest console offers a secondary remote that uses buttons and dials to make common adjustments quick and easy.

The built-in USB port and Qi Charging port allow you to keep your phone or tablet charged during your massage session.

- **TOUCHSCREEN CONTROLLER**
- **QUICK ACCESS ARM CONSOLE**
- **WIRELESS & USB CHARGING PORTS**

Advanced Features

LUXURY BY DESIGN

Advanced features in the new Supreme Hybrid include a redesigned swivel-sliding base that takes up less room as well as enhanced auto-adjustment sensors.

- **ZERO GRAVITY**

The Supreme Hybrid is also a Zero Gravity Recliner, which positions the body so that there is almost no stress on joints or the heart.

- **2" WALL-HUGGER DESIGN**

The base of the chair swivels during recline, so almost no space is needed between the chair and a wall.

- **BLUETOOTH WIRELESS SPEAKERS**

Left and right speakers allow you to incorporate music therapy or meditation.

- **GRAPHITE HEATING COILS**

A redesigned heating element is behind the new instant-on warming unit.

Massage Programs

PROFESSIONALLY DESIGNED

The Supreme Hybrid offers over 36 built-in massage sessions that are programmed in consultation with professional massage therapists. Massage sessions offer massage programs based on chair features, mood, targeted body part, and time of day.

HYBRIFLEX™ MESSAGE PROGRAM

This premium stretch massage program is designed to make full use of the Supreme Hybrid's innovative stretching technology.

HybriFlex

Deep stretching
and dual massage
action; a relaxing
yet invigorating
session of energy
work.
