READY WHEN YOU NEED IT, OUT OF THE WAY WHEN YOU DON'T.

INNOTEX ENERGY INTEGRATED CLASS II HARNESS

FEATURES

- 1 Easy-opening hook & loop belt loops, front and back.
- 2 Sliding D-ring to attach an escape system.
- 3 Sliding D-ring to attach to a tether.
- 4 Leg loops.
- 5 Quick-release stow tab for tether.
- 6 Various pocket options to store rescue devices.
Ex: 9" x 9" self-rescue pocket with Kevlar® and polymer-coated aramid available.
Extra-large 10" x 10" cargo pocket is shown.
- 7 Pass-through opening.
- 8 Opening covered with outer shell fabric to prevent water from infiltrating the pants and to add structural integrity. Stress points are reinforced with bar tacks.

The integrated harness option is available in sizes 30 to 54 only. Comes with our neoprene-padded H-back suspenders that attach to horizontal loops, so there is no metal hardware to dig in or catch.

The sturdy **Class II Harness** is integrated into our INNOTEX® ENERGY™ turnout pants between the outer shell and the liner system so it's immediately accessible when you need it and out of the way when you don't. Rigging the harness is as easy as donning the pants. One and done.

Made of 100% Dupont™ Kevlar® webbing with high-strength Kevlar® stitching and heavy-duty hardware for extreme durability. The harness system can be set up left-to-right or right-to-left, depending on your preference. Its hook-and-D closure ensures optimal speed and secure fastening.

The extra-stable **double-layered A-frame** is stowed on the waist belt and comes equipped with sliding D-rings for easy attachment to an escape system. Adjusters on the waist band and leg loops provide a customized fit for superior comfort. Loading the harness automatically brings the leg loops into the appropriate seating position. The entire harness can be quickly removed for easy care and maintenance.

 **GEMTOR™ 544 FR CLASS II HARNESS**
CLASSIFIED BY UNDERWRITERS LABORATORIES INC. IN ACCORDANCE WITH NFPA 1983-2017 57AF

STABLE A-FRAME DESIGN
