

INTENSE, REALISTIC DIGITAL FIRE TRAINING JUST GOT BIGGER.

The HyperFire™: Giving You the Power to Customize and Expand Your Fire Training Anywhere, Anytime.

Creating a
larger seat of
fire for bigger,
more effective
training

CONNECT.

The HyperFire™ is a powerful tool that allows users to connect up to nine **ATTACK™** panels in multiple configurations, in order to create a larger seat of fire. This array of panels can be set up in any number of customizable positions creating a completely modular training environment.

CREATE.

Create an expansive and customizable training environment that offers more challenges by using the HyperFire in conjunction with multiple **ATTACK** panels. Customize the iteration with varying levels of difficulty and make more realistic and training scenarios to help students adapt to ever changing situations.

TRAIN.

The ability to quickly start and stop iterations and reset the scenario using the intuitive controls of the HyperFire means more training can occur more efficiently. Training officers can quickly stop the iteration and safely instruct trainees without having to extinguish a flame or clear the room of smoke.

HyperFire™

INTENSE, REALISTIC DIGITAL FIRE TRAINING

HYPERFIRE™ BASE COMPONENTS:

- A. HyperFire Unit
- B. Tablet Controller
(Sold Separately)
- C. Power Cables

Specifications

PHYSICAL SPECIFICATIONS

- ▶ **Case Size:**
20"L × 15 ¾"W × 8"H
(60 cm × 40 cm × 20 cm)
- ▶ **Weight:**
19 ½ lbs. (8 ¾ kg.)

ELECTRICAL

- ▶ 12A/115VAC Version
- ▶ 6A/230VAC Version

HYPERFIRE ATTTAK POWER CABLE

- ▶ **Power Cable Length:**
50 ft. each (15 ¼ m)
- ▶ **Power Cable Weight:**
2 lbs. each (1 kg.)

CONTROLLER

- ▶ **Tablet Controller**
A tablet controller is required for setup and configuration. It can be purchased through LION or customer-supplied

OPTIONAL ACCESSORIES

- ▶ **Industrial Remote**
This waterproof remote allows the instructor to be present during the evolution without worrying about damaging the controls

LIMITED 1-YEAR WARRANTY
