The Original

TURNOUT GEAR STORAGE SYSTEM

Designed & Sold by Firefighters through Distributors Nationwide!

Ready Rack's corporate headquarters are located in Woodstock, IL. There we inventory, assemble, and package the various components that make up our products for shipment to our customers. Groves Incorporated partners with manufacturers in the United States and around the world. By using multiple sources, we are able to get the most competitive pricing for our customers, while maintaining the highest quality.

When you purchase a Ready Rack system through our nationwide fire service distribution network, you are supporting firefighters who often work second jobs as expert sales consultants. Our business plan allows these heroes to earn extra money to support their families and provides you with real hands-on product knowledge.

Visit www.ReadyRack.com to use our wall space calculator.

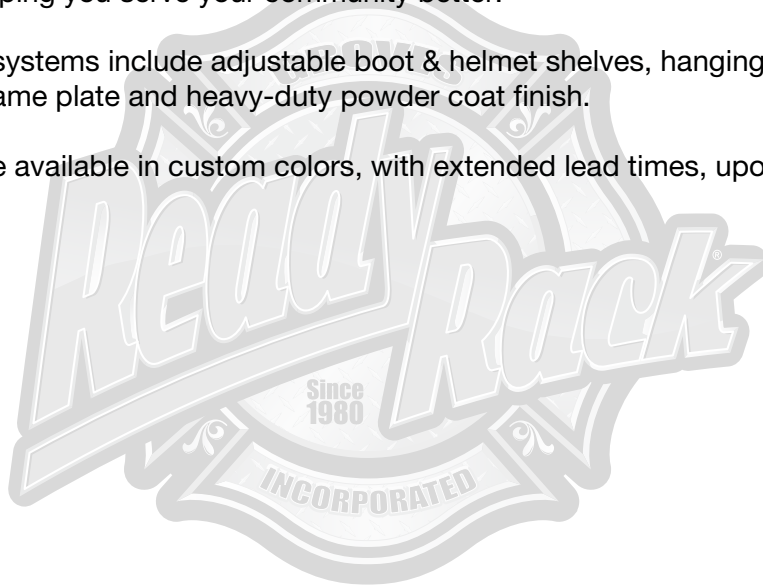

Red Rack™

Designed for maximum air circulation, Red Rack™ and Dry Kwik accessories help PPE and gear dry faster and last longer. Our system creates maximum organization which helps shave precious extra seconds off your response times; helping you serve your community better!

All Red Rack™ Storage systems include adjustable boot & helmet shelves, hanging pole, adjustable apparel hooks, label holder for name plate and heavy-duty powder coat finish.

Red Rack™ products are available in custom colors, with extended lead times, upon request. Additional fees may apply.

The Red Rack Advantage!

Structurally superior design does not require rear grid.

- Red Rack is designed to stand up to the rugged demands of the Fire Service.
- Tubular steel design is the strongest configuration on the market and does not require a rear grid.
- SAFER! Open back design allows easy access to your station's building code approved electrical outlets.
- Easier to install! Design does not obstruct switches or outlets.
- Maintenance friendly! Clean or paint walls without removing the rack.

Wall Mounted Red Rack™

Wall Mounted Red Rack™

Available in 18", 20" or 24" wide sections, units are 20" deep and 72" tall. **Red Racks can be ordered in virtually any wall run length thanks to our exclusive modular design.**

Ready Rack®

Wall Mounted Ready Rack®

Ready Rack® is available in a wide range of models, New Tech Wall Mounted, Freestanding and Mobile. Choose from standard units, or customize the installation to fit your station's wall or floor space.

Ready Rack® components are manufactured with a durable, heavy-duty zinc chromate finish and protected with a special clear-coat sealer. All units are supplied with two levels of open wire shelving. Full length grid dividers separate individual sections between top and bottom shelf levels and provide a 4" tall divider on the top shelf level. Grid dividers are also supplied for ends of the unit. Each individual section is supplied with two hanging apparel hooks, one snap on plastic name plate, and a hanging pole that runs the length of the unit.

Hose Washer

Made in U.S.A. 

- Heavy gauge stainless steel construction.
- Easy one person operation - no pedals to hold down.
- Automatically feeding drive motor powers the washer brushes and exit squeegees.
- Water boost pump pressurizes standard garden hose to 300 psi for powerful cleaning.
- Two adjustable high pressure soap injectors.
- Two 10" nylon scrub brushes provide a deep and thorough scrubbing.
- Ten high pressure rinse injectors.
- Two 12" polymer disks with nylon rollers move the hose through smoothly.
- Faster cleaning time - speed of 25 ft/min; wash and rinse in one process.
- Compact design - only 46" L x 24" W x 40" H.
- Mobile heavy-duty 4" casters.
- Cleans hoses up to 4" in diameter.
- Shut off water valve at machine.
- Power - 220V-20amp (110V-30amp option available).
- Water drain - 6' flexible drain line from bottom of cabinet.
- Removable rear panel for easy access to components for service or maintenance.
- Made in USA.

Model#	Description
RRHW	46" L x 24" W x 40" H

Mobile Hose Dryer

Made in U.S.A.

With the Mobile Hose Dryer/Hose Tower, equipment dries naturally and quickly with fresh air, prolonging the life of your equipment. Use to dry immersion entry suits, wet or dry dive gear and decontaminated hazmat entry suits. Optional hangers hold turnouts, rope, webbing, slings, salvage covers and more. Holds up to 1200' of 1-1/2" - 1-3/4" or up to 800' of 2-1/2" - 3" hose.

Other benefits include:

- SAFE - No more climbing to hang or retrieve hoses.
- Costs thousands less than conventionally built towers.
- Stores and dries in small area.
- Durable red powder coated finish.
- Can be used with our Hose Winder (HW-1 see page 18).

Model#	Description
MHD-80	80" L x 33" W x 88" H

Dry and Store Hose Rack

Made in U.S.A.

With the Dry and Store Hose Rack, you can dry hose and store it on the same unit. Unit consists of the top mounted drying rack where hose and other equipment dries naturally and quickly, and one lower level storage rack. Dry up to 900' of 1-1/2" - 1-3/4" hose or up to 600' of 2-1/2" - 3" hose and simultaneously store up to 650' of 2-1/2" hose. Heavy-duty steel construction with durable red powder coat finish. Can be used with our Hose Winder (HW-1 see page 18). Ideal for use in smaller stations.

Model#	Description
DSHR	80" L x 33" W x 88" H

Mobile Hose Cart

Made in U.S.A.

- Four heavy-duty brake casters allow for ease of rolling and hold the cart in place when loading or unloading.
- Heavy-duty steel rails with a durable red powder coat finish easily support 100' coils.
- Ships knocked down for freight savings.
- Easy to assemble.
- Available in two tier or three tier units.
- Stationary units also available in both two and three tier. Deduct 5" from overall height of unit.
- An optional 20" x 31" cover plate provides a flat surface for holding bottle carriers or other items.
- Total weight capacity 4,400 lbs.
- Can be used with Hose Winder model HW-1. (see page 18)

Large Diameter Hose Winder

Made in U.S.A.

Wind 100-foot sections of large diameter hose up to 6" wide in seconds. Having the ability to steer the winder while rolling the hose, the LDHW turns winding into a one-man operation. With no need to recharge batteries, downtime is drastically reduced. The LDHW drains the hose as you wind it, prolonging hose life. Reduces the risk of back injuries by limiting firefighter fatigue.

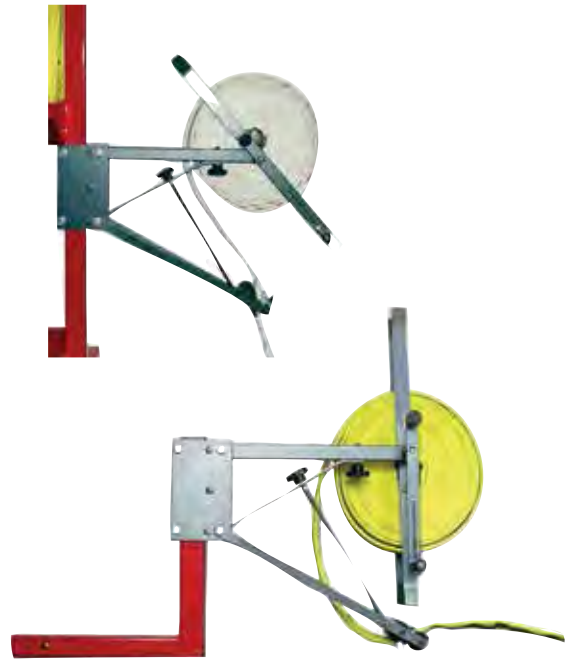

Model#	Dimensions
LDHW	48" L x 36" W x 49" H
Model#	Description
LDHW-TM	Trailer Hitch Mount

Hose Winder

- Fits Mobile Hose Dryer (MHD-80), Dry and Store Hose Rack (DSHR), and all models of Mobile Hose Carts.
- For 1" to 4" Hose.
- Wind tight coils or donuts.
- Roller guide removes air and water as you roll on small diameter hoses.
- Save time and manpower with one person operation.
- Optional trailer hitch mount for truck.
- When not in use, winder collapses to less than 6" deep.
- Fits racks with 2-1/2" square tube frame.
- Easy mounting to Hose Rack and Hose Tower.

Model#	Description
HW-1	Hose Winder
TM-2	Trailer hitch mount

Tilting Hose Turntable

Made in U.S.A.

- 27" diameter table for loading and unloading hose.
- Rugged steel construction with durable red powder coat finish.
- Heavy-duty casters are designed for easy mobility.
- Simply loosen handle to adjust table from a flat horizontal to a complete vertical position and anywhere in between.
- 27" diameter table is large enough for both 50' and 100' coils.

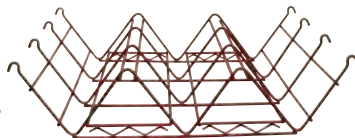

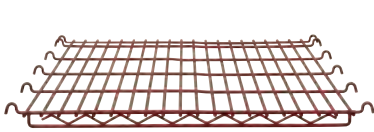

Model#	Description
TT-27	32" L x 28" W x 37" H

S.O.S. Rack™

S.A.M. - Search and Marking Tool

The new safer Search And Marking tool from Groves Incorporated.

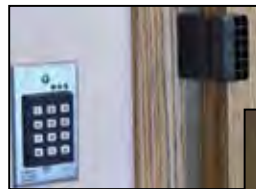

S.A.M. was designed to hold doors wide open during room to room searches.

The innovative all-in-one tool has a high-visibility crayon for marking the door, a high-tension steel hook which goes over the hinge, and a glow in the dark high impact strength molded body that fills the space between the door and jamb to hold doors open.

B.E.T. - Back-Up Entry Tool

- Holds security doors at multi-unit buildings open.
- Lets your back-up respond without being "buzzed in."
- Automatic clamping device holds the B.E.T. on the door.
- Fits a wide range of doors from standard entry to security to fire rated.
- Built to last from impact resistant materials.

Groves Custom Vehicle Recovery Strap

- 62,500 capacity MBS (Minimum Break Strength).
- Berry Compliant.
- Heavy-duty eye hooks with latch.
- NSPL finish for abrasion reduction.
- Weight approximately 30 pounds.
- Designed for quick removal of heavy disabled equipment and debris from various terrain types and conditions.

Model #	Description
GCVRS	Includes one 30' long x 3" wide heavy-duty nylon recovery strap with 2 eye hoist hooks with latch.
