Easily the best Hand Sanitizer I've ever used ... a game changer!

Rob, Toronto ON

"Ok, this hand sanitizer actually smells good, and my hands feel soft after I use it! After using other stuff that reminded me of brutal hangovers from days gone by, I was so happy to find this one! I used a different sanitizer the other day that contains aloe and it took forever to dry, but this one only takes 10 seconds (I literally just timed it)".

- Sarah, Scarborough ON

"This hand sanitizer is lovely, quick drying and smells delicious!

I actually WANT to apply it!"

- Deny, Toronto ON

"Like many others, I have been buying the drug store and alcohol-producer-turned-sanitizer-expert stuff since March. My hands were dry, smelled like vodka, and generally, an unpleasant experience...Until Sootsoap sanitizer. It's simply the best on the market. Coats 100%, smooth, soft, smells great and dries really quick. I love this stuff and telling everyone!!"

- Ross, Halifax NS
