

STICK IT TO WET ICE

INTRODUCING VIBRAM® ARCTIC GRIP PRO

Deep lugs made with an advanced brush-like filler system for unparalleled traction even after wear

FEATURES

- Two times more slip resistant on wet ice than current industry-leading Globe outsole
- Best protection against slips and falls in colder temperatures
- State-of-the-art sole technology specifically engineered to perform on wet ice
- Deep lugs made with an advanced brush-like filler system for unparalleled traction even after wear
- No sacrifice to durability or service life compared to current Globe outsole
- Stays flexible to -40°F/-40°C
- Available on SUPRALITE®, SUPREME™, SHADOW™, TECHNICAL 10", and EMS/WILDLAND 10" styles
