EN

Add dose per 10 litres of water and apply with every watering.

pH: 6,0

The quoted EC values include the EC value of the tap water at 0.5 mS/cm.

Attention: the maximum EC value of the nutrient water must be less than 3.0 mS/cm!

All stated doses are indications and depend on the condition of the plant.

This grow schedule is designed for indoor growing and different types of plants, starting with a young plant like a rooted cutting or a week-old seedling. The duration of the mentioned period is depending on the type of plant.

PLAGRON.
