

FOTILE内循环碳布更换指导

- 为了有更好的使用体验，请定期更换内循环滤筒内的碳布。
建议六个月更换一次（如果您做菜油烟大频次高，请根据实际情况自行决定更换周期）
- 内循环滤筒内一共有2张碳布，须要同时更换。
- 内循环替换包里面有：碳布2张，铝箔胶带1条，更换指导1张

更换步骤

Step.1

从油烟机上拆下内循环滤筒，
取出里面的2张碳布；

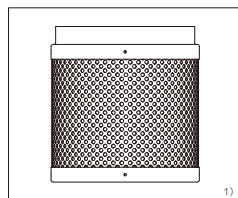

Step.2

清洗干净内循环滤筒外壳并擦干；

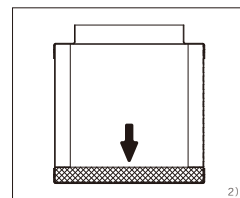

Step.3

拆开内循环替换包，取出碳布；

Step.4

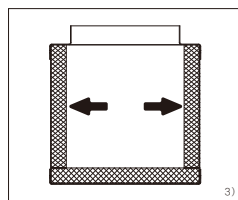

进风口朝上放好内循环滤筒

把小号碳布平铺于内循环滤筒顶面

Step.5

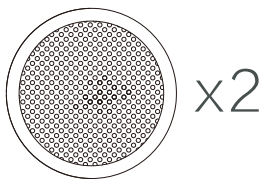

把更换好的内循环滤筒，
安装到油烟机上固定并密封好。
内循环滤筒碳布更换完成。

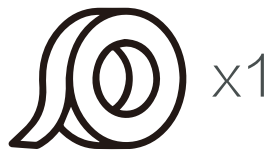

把大号碳布环内循环滤筒壁铺满滤筒

Replacement Instructions for FOTILE Recirculation Kit carbon filters

- To ensure the best results of the product, we recommend replacing the carbon filters every 6 months. (You may also replace the carbon filter more frequently if needed)
- All 2 pieces of carbon filters need to be replaced at the same time.
- The replacement package includes:
Two piece of carbon filter, one piece of duct tape and one replacement instruction.

Carbon filter

Duct tape

Replacement instruction

Replacement steps

Step.one

Uninstall the entire recirculation kit from the range hood and disassemble the 2 pieces of carbon filters.

Step.three

Take out the 2 pieces of carbon filters from the replacement package.

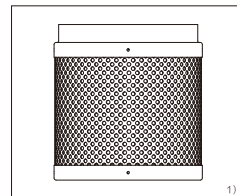

Step.five

Install the replaced recirculation kit back to the range hood and seal the connecting point with duct tape.

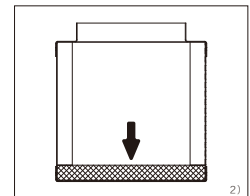

Step.two

Clean the recirculation kit and wipe dry.

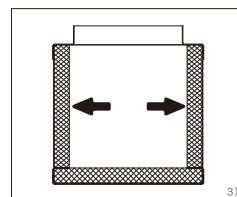

Step.four

1) Place the recirculation kit with the air inlet facing upwards

2) Place the smaller carbon filter on the top of the recirculation kit

3) Place the large carbon filter on the side wall of the recirculation kit
