Liquid Abalone Fish Soil Booster Fertilizer Plus 21% Nitrogen

BioEarthN Soil Booster Fertilizer improves soil health and increases soil fertility by providing the primary nutrients and active micro-organisms necessary for plants to thrive. BioEarthN offers a source of burn-free nitrogen, along with primary nutrients such as phosphorus and potassium.

Unlike synthetic fertilizer BioEarthN Abalone Fish Fertilizer Contains a cocktail of beneficial Active Micro-organisms in addition to primary and secondary nutrients such as nitrogen, phosphorus, potassium, calcium and active micro-organisms. Plants grown in soils abundant in active micro-organisms that receive a balance of primary and secondary nutrients experience strong and steady plant growth leading to vigorous healthy plants that have higher yields and can better withstand disease and pest issues. Our liquid abalone fish fertilizer range are all free-flowing organic liquid which means they are easy to decant into mixing and irrigation tanks and are guaranteed to pass easily through all forms of spray equipment. The improved efficiency of our easy flow fertilizers means our products are rapidly absorbed and deliver the nutrients evenly. Bio EarthN fertilizer is a completely natural non-toxic organic product that is safe on all soils and plants.

21% Nitrogen enhances both productivity and profitability and is critical to plant growth and reproduction. When applied to soil nitrogen supports rapid plant growth and encourages healthy development of fruit and foliage. Nitrogen based fertilizers are specifically beneficial for the development of young plants that need to grow rapidly and establish themselves in soil. Soil management through the addition of a balanced nitrogen fertilizer will improve the nitrogen use efficiency 'NUE' in the soil and help sustain increased plant growth.
