SET UP GUIDE

Sky Remote

STANDBY Button

TV Button

SKY Button

SELECT Button

RED BUTTON

1. Find your TV code on The sky website and write it down for use later.
<http://www.sky.com/help/program-your-remote>
2. Turn your TV set on and then press the "TV" button on your Sky Remote.
3. Hold down the "select" button and the red button together for 3 seconds until the LED blinks twice and then press the TV button again.
4. Find your code from the list below and enter the 4-digit number for your make of TV that you found earlier.
5. To confirm the pairing, the LED should blink twice. If not, please recheck that your TV code is correct and begin the steps again
6. Once confirmed, press the "standby" button on the Sky remote. Your TV should enter standby mode. Then, press the "select" button to store

XBox Series S Plastic Wall Mount:

Mount your Series S in style, with this quick clip wall mount that's virtually invisible when in use. This high quality ABS wall mount holds your Xbox Series S out of harms way and keeps things cool with the carefully placed vents to ensure your console has the maximum ventilation possible. Choose the Series S and Controller bundle to complement the Console Mount with Controller Clips.

SET UP GUIDE

1. Remove the product and all fixings from the packaging.

2. Hold the wall mounted bracket firmly against the wall and use a pencil to mark the screw holes.

3. Use a power drill holes on your pencil marks to the size and depth of the included rawl plugs before inserting the rawl plugs into the holes.

TIP - Mark the depth needed with a piece of electrical tap on the drill bit.

4. Align the brackets mounting holes to the holes in the wall before evenly tightening the screws until the product is flush to the wall and the screws are snug.

5. If you've chosen to Series S and controller bundle, repeat the previous step with the controller brackets

6. Slide your Series S into the wall mount

Single Feed Mode (IF YOU HAVE ONLY ONE SATELLITE CABLE)

Press services on your remote control followed by 0, 0, 1 then select this will bring up a hidden engineers menu you will see below a setting for single feed mode you will need to scroll down to single feed mode and turn this setting to on, you will prompted to save this setting and follow the on screen instructions this will enable only one satellite tuner to operate now so you will need to make sure the satellite cable is connected to the one tuner that is active, once single feed mode is set you should find the box will operate correctly.

For A full set-up guide, or more information, please visit <https://q-view.co.uk/pages/sky-faq> or please call us, and we'd be happy to help on 020 3654 1804

SET UP GUIDE Sky HD box

1. Connect your satellite (LNB) cables to the DISH INPUT 1 and DISH INPUT 2 sockets, then tighten them until they're finger tight. It doesn't matter which cable goes into which port, but be careful not to bend the thin copper wire sticking out of these cables.

Please note: If you only have one satellite cable, connect it to DISH INPUT 1. Once you've completed plugging in your new Sky+HD box, you'll need to set up single feed mode.

2. Plug one end of your HDMI cable into the hdmi socket on the back of your Sky+HD box, then plug the other end into an available HDMI port on your TV. If you don't have an HD-ready TV, you can use a SCART cable to connect instead. Then plug the end of the power cable into the power port on the back of your new Sky+HD box, then plug in at the mains and switch on.

3. If your using an existing Sky card Insert your viewing card with the sky logo pointing upwards by opening the flap on the right hand side of your Sky+HD box.

4. Switch on your TV and ensure it's tuned to the correct input source by pressing the source or input button on your TV remote (on most TV remotes, this is indicated by a box with an arrow pointing into it). Ensure your Sky+HD box has been plugged in and switched on at the mains for at least three minutes.

5. Press "sky" on your Sky remote to bring your box out of standby mode. If the standby light doesn't turn green on your box, wait for another minute before trying again.

These boxes are designed to work on one or two satellite feeds however the benefit of having two satellite connected you will be able to record one channel and watch another at the same time. If you only have one satellite feed, Dont worry, you just have to set your box to single feed mode.

For Single Feed mode, Please read the intructions on the next page.

XBox Series S Steel Wall Mount:

Wall Mount Your Xbox Series S! The Q-View XBSS Mount places your Xbox Series S elegantly on the wall away from possible accidental damages.Keep things cool, with our vent openings, specially designed to maximize airflow to your Xbox.
