

Z'Fogless Lighted Zoom Mirror (Z850)

SAVE THESE INSTRUCTIONS

Mirror

Fogless Lighted Zoom Mirror has a "Magnification Control Knob" located on the right side of the mirror. By turning the Magnification Control Knob counterclockwise, the mirror changes from 1X to 5X magnification so you can zoom in to get a close-up look.

Remove protective plastic film from the mirror after installation and before first use.

Mirror is designed for "close-up" use. There can be mirror distortion when viewing over 2 feet away.

Maintenance/Care

In order to remain fogless, regular maintenance of your Z'Fogless Shower Mirror is required. Clean your Z'Fogless Shower Mirror with the Z'Fogless Spray, or a non-ammonia cleaner such as Fantastik or Formula 409, and a non-abrasive cloth.

What to do if mirror won't stay fogless?

Hard water deposits and oils from skin and hair can adhere to the mirror surface, and cause it to lose its "fogless" abilities. To return your Z'Fogless Shower Mirror to its original fogless state, simply clean your mirror with the methods outlined in the "Maintenance/Care" section of the instructions.

TIMER

To turn LED shaving light on, press button at bottom of unit only once. Automatic timer will switch light off after 5 minutes.

MOUNTING OPTIONS

There are 3 available options for mounting the Fogless Lighted Zoom Mirror:

1.) Mounting Bracket and Tape

- Insert mounting bracket (supplied) into top two suction cup holders on back of mirror.
- Remove one side of tape back and firmly press double-sided mounting tape (supplied) to back of mounting bracket.
- Remove second side of tape back and press against area of wall in desired position.

2.) Suction Cups

- Attach suction cups to designated slots on back of mirror.
- Use on dry surface such as shower screen glass or tiles.
- Do not use over tile grouting. Marble is an unsuitable surface for long-term suction cup mounting.
- Please check suction cups occasionally for proper adhesion.
- Suction cups operate best when they are occasionally released and the surface on which they stick is cleaned and dried.

3.) Cord

- Wrap cord (supplied) around top two suction cups and hang in desired location.

CAUTION:

- This unit is "Water Resistant" but it should not be placed in the direct path of the shower spray, and it should never be fully immersed in water.
- Exposure to direct sunlight may cause fire, please use caution.
- Use only fresh batteries of the required type and size.
- Do not mix old and new batteries, different types of batteries, or rechargeable batteries of different capacities.
- The batteries may explode if mistreated. Do not attempt to recharge or disassemble the batteries.
- Depleted batteries are to be removed from the item.
- Dispose of the old batteries properly, and according to your local regulations.
- Ensure that batteries are kept out of reach of young children.
