

THANK YOU FOR PURCHASING ONE OF OUR INNOVATIVE FOGLESS PRODUCTS

Please Retain This Important Information

Cleaning Hints ✓

This product requires cleaning. If splashing of water does not clear mirror, clean with our *Z'Fogless Spray Cleaner*, or a non-abrasive household degreaser. We have included for your convenience a reusable Towelette. This towelette can be used for many months and is reactivated by cleaning wet mirror.

Shaving Hints ✓

For best results, shave at the end of your shower. This allows the hot steam and moisture to soften facial hair by about 40%, which reduces the force needed to cut the hair by nearly 70%. Shaving in the shower provides a 60% smoother, closer shave-reducing irritation, nicks and cuts to the skin. For best results – and to revitalize the mirror, order our *Z'Fogless Spray Cleaner* – model ZSP1, use it in your car, boat, or on a bathroom mirror to keep it clean and fog-free .
