

SAFETY DATA SHEET

	1. Identification					
Product identifier	Grass So Green 19-0-0					
Other means of identification	Not available.					
Recommended use	Fertilizer					
Recommended restrictions	None known.					
Manufacturer/Importer/Supplier/	Distributor information					
Manufacturer						
Company name Address	Pro Products LLC 6714 Pointe Inverness Way					
	Suite 200					
	Fort Wayne IN					
	46804-7935					
	United States					
Telephone	260-483-2519					
E-mail	Not available.					
Emergency phone number	1-800-424-9300 (CHEMTREC)					
Supplier	See above.					
	2. Hazard identificatio	n				
Physical hazards	Not classified.					
lealth hazards	Not classified.					
Environmental hazards	Not classified.					
WHMIS 2015 defined hazards	Not classified					
_abel elements						
Hazard symbol	None.					
Signal word	None.					
Hazard statement	The mixture does not meet the criteria for cla	ssification.				
Precautionary statement						
Prevention	Observe good industrial hygiene practices.					
Response	Wash hands after handling.					
Storage	Store away from incompatible materials.					
Disposal	Dispose of waste and residues in accordance	e with local authority requireme	ents.			
WHMIS 2015: Health Hazard(s) not otherwise classified (HHNOC)	None known					
WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC)	None known					
Hazard(s) not otherwise classified (HNOC)	None known.					
Supplemental information	Not applicable.					
	3. Composition/Information on i	ingredients				
Mixture						
Chemical name	Common name and synonyms	CAS number	%			
Urea		57-13-6	30 - 60*			

US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

	4. First-aid measures		
Inhalation	If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.		
Skin contact	If on skin: Flush thoroughly with water.		
Eye contact	If in eyes: Flush thoroughly with water for 15 minutes. If irritation persists, get medical attention.		
Ingestion	If swallowed: Do NOT induce vomiting. Drink one or two glasses of water. Call a poison control center or doctor immediately for treatment advice.		
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.		
Indication of immediate medical attention and special treatment needed	Symptoms may be delayed.		
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Sho this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Wear rubber gloves and safety glasses with side shields. Keep out of reach of children.		
	5. Fire-fighting measures		
Suitable extinguishing media	Treat for surrounding material.		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical	Firefighters should wear a self-contained breathing apparatus.		
Special protective equipment and precautions for firefighters	Firefighters should wear full protective clothing including self-contained breathing apparatus.		
Fire-fighting equipment/instructions	Move containers from fire area if you can do so without risk.		
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.		
General fire hazards	No unusual fire or explosion hazards noted.		
Hazardous combustion products	May include and are not limited to: Oxides of carbon. Oxides of nitrogen. Ammonia.		
	6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep out of low areas. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see section 8 of the SDS.		
Methods and materials for containment and cleaning up	Large Spills: Stop leak if you can do so without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.		
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.		
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Before attempting clean up, refer to hazard data given above. Small spills may be absorbed with non-reactive absorbent and placed in suitable, covered, labelled containers. Prevent large spills from entering sewers or waterways. Contact emergency services and supplier for advice.		
Environmental precautions	Prevent entry into waterways, sewers, basements or confined areas. This material is a water pollutant and should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water.		
	7. Handling and storage		
Precautions for safe handling	Avoid prolonged exposure. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. When using do not eat or drink. Avoid contact with eyes, skin and clothing. Do not reuse the empty container.		
Conditions for safe storage, including any incompatibilities	Store in a closed container away from incompatible materials. Keep out of reach of children. Store in original container and reseal after each use. Do not reuse container.		

8. Exposure controls/Personal protection

Components	Туре	Value	Form	
Urea (CAS 57-13-6)	TWA	10 mg/m3	Total particulate.	
Biological limit values	No biological exposure limits noted for the ingredient(s).			
Appropriate engineering controls	Good general ventilation (typically 10 a should be matched to conditions. If app or other engineering controls to maintai exposure limits have not been establish	licable, use process enclosu in airborne levels below reco	ures, local exhaust ventilation, ommended exposure limits. If	
Individual protection measure	s, such as personal protective equipmen	nt		
Eye/face protection	Wear safety glasses with side shields.			
Skin protection				
Hand protection	Impervious gloves. Confirm with reputable supplier first.			
Other	As required by employer code.			
Respiratory protection	Where exposure guideline levels may b Respirator should be selected by and u professional following requirements fou CAN/CSA-Z94.4 and ANSI's standard f	sed under the direction of a nd in OSHA's respirator star	trained health and safety ndard (29 CFR 1910.134),	
Thermal hazards	Not applicable.			
General hygiene considerations	Wash hands before breaks and immed good industrial hygiene and safety prac			

9. Physical and che	mical properties
---------------------	------------------

Appearance	Clear
Physical state	Liquid.
Form	Liquid
Color	Yellow
Odor	Slight ammonia
Odor threshold	Not available.
рН	6 - 7
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Specific gravity	1.214 (10.12 pounds/gallon)
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Pour point	Not available.

10. Stability and reactivity

Reactivity	This product may react with strong acids.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Chemical stability	Stable under recommended storage conditions.
Conditions to avoid	Do not mix with other chemicals.
Incompatible materials	Acids. Oxidizers.
Hazardous decomposition products	May include and are not limited to: Oxides of carbon. Oxides of nitrogen. Ammonia.

11. Toxicological information

Routes of exposure

Eye, Skin contact, Inhalation, Ingestion.

Information on likely routes of exposure				
Ingestion	May cause stomach distress, nausea or vomiting.			
Inhalation	No adverse effects due to inhalation are expected.			
Skin contact	No adverse effects due to skin contact are expected.			
Eye contact	Direct contact with eyes may cause temporary irritation.			
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.			

Information on toxicological effects

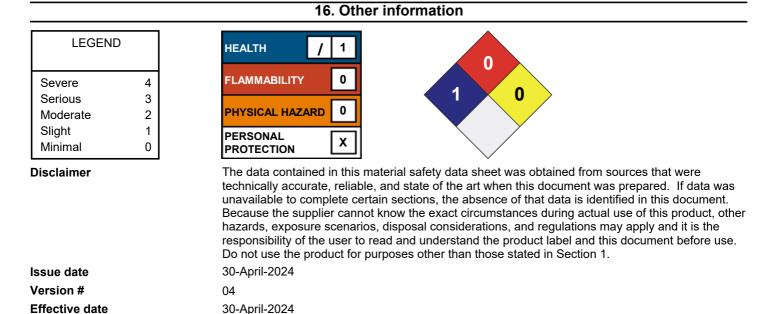

Acute toxicity

Components	Species	Test Results
Urea (CAS 57-13-6)		
Acute		
Dermal		
LD50	Not available	
Inhalation		
LC50	Not available	
Oral		
LD50	Rat	14300 mg/kg, ECHA
Skin corrosion/irritation	Prolonged skin contact	may cause temporary irritation.
Exposure minutes	Not available.	
Erythema value	Not available.	
Oedema value	Not available.	
Serious eye damage/eye irritation	Direct contact with eye	s may cause temporary irritation.
Corneal opacity value	Not available.	
Iris lesion value	Not available.	
Conjunctival reddening value	Not available.	
Conjunctival oedema value	Not available.	
Recover days	Not available.	
Respiratory or skin sensitization	I	
Respiratory sensitization	Not available.	
Skin sensitization	This product is not exp	ected to cause skin sensitization.
Mutagenicity	Non-hazardous by WH	MIS/OSHA criteria.
Carcinogenicity	Not classified or listed	by IARC, NTP, OSHA and ACGIH.
OSHA Specifically Regulated	d Substances (29 CFR	1910.1001-1052)
Not listed.		
Reproductive toxicity	Non-hazardous by WH	MIS/OSHA criteria.
Teratogenicity	Non-hazardous by WH	MIS/OSHA criteria.
Specific target organ toxicity - single exposure	Not classified.	

Specific target organ toxicity - repeated exposure				
· · · · · · · · · · · · · · · · · · ·	Not classified.			
spiration hazard Not available.				
Chronic effects	Non-hazardous by WHMIS/OSHA criteria.			
	12. Ecological information			
	· · · · · · · · · · · · · · · · · · ·			
Ecotoxicity	Not available.			
Persistence and degradability Not available.				
Bioaccumulative potential	No data available.			
Mobility in soil No data available.				
Mobility in general	Not available.			
Other adverse effects	Not available.			
	13. Disposal considerations			
Disposal instructions	Review federal, state/provincial, and local government requirements prior to disposal.			
Local disposal regulations	Dispose in accordance with all applicable regulations.			
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.			
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).			
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.			
	14. Transport information			
Transport of Dangerous GoodsClassification Method: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Dangerous Goods Regulations. If applicable, the technical name and the classification of the product will appear below.				
Transportation of Dangerous Go	bods (TDG - Canada)			
Not regulated as dangerous g	joods.			
inou regulated as dangerous g	noods. 15. Regulatory information
