Supplemental information None.	· · ·	Contact with acids liberates toxic gas.			
	Hazard(s) not otherwise classified (HNOC)				

Mixture			
Chemical name	Common name and synonyms	CAS number	%
Sodium hydrosulfite		7775-14-6	15 - 40
Sodium carbonate		497-19-8	10 - 30

\_

Chemical name	Common name and synonyms	CAS number	%
Sodium metabisulfite		7681-57-4	10 - 30
Citric Acid		77-92-9	1 - 5
Sodium sulfite		7757-83-7	1 - 5
All concentrations are in percent by	y weight unless ingredient is a gas. Gas conce	ntrations are in percent by volur	ne.
Composition comments	US GHS: The exact percentage (concentration secret in accordance with paragraph (i) of §1 CANADA GHS: The exact percentage (concersecret.	910.1200.	
	4. First-aid measures	;	
Inhalation	If symptoms develop move victim to fresh air	. If symptoms persist, obtain me	dical attention.
Skin contact	Flush with cool water. Wash with soap and w		
Eye contact	IF IN EYES: Rinse cautiously with water for s and easy to do. Continue rinsing. Immediatel	several minutes. Remove conta	ct lenses, if present
Ingestion	Rinse mouth. Do not induce vomiting. If vomi reduce risk of aspiration. Never give anything Obtain medical attention.		
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include vision. Permanent eye damage including blin tract, skin and eyes.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and tre	at symptomatically. Symptoms	may be delayed.
General information	If you feel unwell, seek medical advice (show personnel are aware of the material(s) involv this safety data sheet to the doctor in attenda reach of children.	ed and take precautions to prote	ect themselves. Show
	5. Fire-fighting measur	es	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Cart	oon dioxide.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as th	nis will spread the fire.	
Specific hazards arising from the chemical	During fire, gases hazardous to health may b	e formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full p	rotective clothing must be worn	in case of fire.
Fire-fighting equipment/instructions	In case of fire and/or explosion do not breath so without risk.	e fumes. Move containers from	fire area if you can do
Specific methods	Use standard firefighting procedures and cor	sider the hazards of other involved	ved materials.
General fire hazards	No unusual fire or explosion hazards noted.		
Hazardous combustion products	May include and are not limited to: Oxides of	sulfur. Oxides of carbon.	
	6. Accidental release mea	sures	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep per non-sparking tools. Dust deposits should not form an explosive mixture if they are released Wear appropriate protective equipment and of containers or spilled material unless wearing ventilation. Local authorities should be advised personal protection, see section 8 of the SDS	be allowed to accumulate on su d into the atmosphere in sufficie clothing during clean-up. Do not appropriate protective clothing. ed if significant spillages cannot	urfaces, as these may ont concentration. touch damaged Ensure adequate

thods and materials for ntainment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Take precautionary measures against static discharge. Prevent entry into waterways, sewer, basements or confined areas. Stop the flow of material, if this is without risk.		
	container. Absorb spillage to prevent	nd dike for later disposal. Shovel the material into waste material damage. Absorb in vermiculite, dry sand or earth product recovery, flush area with water.	
		o spillage and collect in suitable container for disposal. Wipe n, fleece). Clean surface thoroughly to remove residual	
	Never return spills to original contain	ers for re-use. For waste disposal, see section 13 of the SD	
vironmental precautions	Avoid discharge into drains, water co streams, ponds or public waters.	ourses or onto the ground. Do not discharge into lakes,	
	7. Handling and	storage	
ecautions for safe handling	appropriate personal protective equip	skin and clothing. Avoid prolonged exposure. Wear oment. Wash thoroughly after handling. Use good industrial aterial. When using do not eat or drink.	
nditions for safe storage, luding any incompatibilities		t sunlight. Keep containers tightly closed in a dry, cool and e original container. Store away from other materials. Keep

Components	Туре	Value
Sodium metabisulfite (CAS 7681-57-4)	TWA	5 mg/m3
Biological limit values	No biological exposure limits noted	for the ingredient(s).
Appropriate engineering controls	should be matched to conditions. If or other engineering controls to mai exposure limits have not been estab If engineering measures are not suf	xhaust ventilation. 0 air changes per hour) should be used. Ventilation rates applicable, use process enclosures, local exhaust ventilation, ntain airborne levels below recommended exposure limits. If plished, maintain airborne levels to an acceptable level. ficient to maintain concentrations of dust particulates below the , suitable respiratory protection must be worn.
ndividual protection measures	, such as personal protective equip	ment
Eye/face protection	Wear safety glasses with side shield	ds (or goggles).
Skin protection		
Hand protection	Impervious gloves. Confirm with re	putable supplier first.
Other	Wear suitable protective clothing. A	s required by employer code.
Respiratory protection	Respirator should be selected by ar professional following requirements	ay be exceeded, use an approved NIOSH respirator. Ind used under the direction of a trained health and safety found in OSHA's respirator standard (29 CFR 1910.134), Ird for respiratory protection (Z88.2).
Thermal hazards	Not applicable.	
General hygiene	When using, do not eat, drink or sm	oke. When using do not eat or drink.

9. Physical and chemical properties

Appearance	Powder.
Physical state	Solid.
Form	Powder. Free flowing solid
Color	White
Odor	Mint
Odor threshold	Not available.
рН	5.5 - 6.5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Specific gravity	Not available.
Flash point	None
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	1.2 - 1.3 g/ml
Solubility(ies)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information						
Pour point	Not available.					
Dust explosion properties	6					
St class	No explosion.					
Explosive properties	Not explosive.					
Oxidizing properties	Not oxidizing.					
	10. Stability and rea	activity				
Reactivity	This product may react with strong oxidi	izing agents.				
Possibility of hazardous reactions	No dangerous reaction known under co	nditions of normal use.				
Chemical stability	Material is stable under normal condition	ns.				
Conditions to avoid	Do not mix with other chemicals.					
Incompatible materials	Strong oxidizing agents. Combustible m	aterial.				
	Not corrosive to SAE 1020 Steel or non- and Criteria, Part III, Section 37.1 -Corro	-clad Aluminum based on test data (UN Manual of Tests osion to metals).				
Hazardous decomposition products	May include and are not limited to: Oxid	es of sulfur. Oxides of carbon.

Contaminated packaging			e, follow label warnings even after container is proved waste handling site for recycling or	
		14. Transport information		
Transport of Dangerous Goods (TDG) Proof of Classification	Dangerou	tion Method: Classified as per Part 2, Secti s Goods Regulations. If applicable, the teo ill appear below.		

Page: 7 of 9

Not corrosive to SAE 1020 Steel or non-clad Aluminum based on test data (UN Manual of Tests and Criteria, Part III, Section 37.1 -Corrosion to metals).

TDG: Marine Pollutants Exemption. 1.45.1. : Part 3, Documentation, and Part 4, Dangerous Goods Safety Marks, do not apply to substances that are classified as marine pollutants in accordance with section 2.43 of Part 2, Classification, if they are in transport solely on land by road vehicle or railway vehicle. However, substances may be identified as marine pollutants on a shipping document and the required dangerous goods safety marks may be displayed when they are in transport by road or railway vehicle. (SOR/2008-34, s. 23)

DOT: CFR 171.4 (c): (1) Except when all or part of the transportation is by vessel, the requirements of this subchapter specific to marine pollutants do not apply to non-bulk packagings transported by motor vehicle, rail car or aircraft. (2) Single or combination packagings containing a net quantity per single or inner packaging of 5 L or less for liquids or having a net mass of 5 kg or less for solids, are not subject to any other requirements of this subchapter provided the packagings meet the general requirements in §§173.24 and 173.24a. This exception does not apply to marine pollutants that are a hazardous waste or a hazardous substance. In the case of marine pollutants also meeting the criteria for inclusion in another hazard class, all provisions of this subchapter relevant to any additional hazards continue to apply.

## U.S. Department of Transportation (DOT)

Not regulated as dangerous goods.

#### Transportation of Dangerous Goods (TDG - Canada)

Not regulated as dangerous goods.

### 15. Regulatory information

Canadian federal regulations	This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.
Export Control List (CEPA Not listed. Greenhouse Gases	1999, Schedule 3)
Not listed. Precursor Control Regulation	ons
Not regulated.	
WHMIS 2015 Exemptions	Not applicable
US federal regulations	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
TSCA Section 12(b) Export	Notification (40 CFR 707, Subpt. D)
