

Roller Rescue Guide

Why Roller Rescue:

- A **chemical exfoliant** that penetrates deeper into the skin to alleviate ingrown hairs, bikini bumps and more.
- Easy to use premium stainless steel roller applicator for cooling feel, and smooth application.
- Priced at **\$19 USD / \$26 CAD** it's affordable for your clients to add to their routine & should last 2 months.

How clients will add it to their routine:

- Use 24 hours after hair removal.
- Start by using the product twice a week and gradually increase the frequency of use as the skin gets used to the formula, up to daily use.

Common Questions:

Why a stainless steel ball?

304 stainless steel is the same steel used in hospitals and medical devices. The stainless steel roller ball is non-porous which prevents bacteria build-up which makes it much better than a plastic roller ball. We also added preservatives in the formula which prevents product damage caused by microorganisms and protects the product from inadvertent contamination by the consumer during use.

How long does it take for results?

Your clients skin will take time to get used to the formula, but can see fairly quick results. If a client suffers from immediate redness we'd recommend using the Hydrogel Vajacial Mask immediately. The Roller Rescue Soothing Serum and Nude Ingrown Hair Oil are the perfect pair for exfoliation and hydration for your clients, all at affordable prices!

Consumer Study

97% experienced fewer ingrown hairs and bumps after using.

96% experienced instant cooling upon applying this product.

100% agreed that they saw noticeable results after using.

Roller Rescue Routine

WEEK 1 + 2

Twice A Week
with no
back-to-back days

WEEK 3 + 4

Every
Other Day

WEEK 5 + 6

Daily
Usage

**FOR MORNING
APPLICAITON**
Remember to apply
sunscreen before
exposing your skin
to the sun.

For the remainder of the week, continue with your regular skincare routine without using the acid.

Continue with your regular skincare routine on alternate days, without using the acid.

If you find that three times per week is too much for your skin, please continue applying it twice a week.

If you find that daily is too much for your skin, please continue applying it three times a week.
