Quilter Basics

Read instructions before beginning a project.
All instructions include a 1/4" seam allowance.
22" measurement is approximate; WOF=width of fabric.
22" may indicate cutting the length of a fat quarter
or cutting the width of fabric strip in half

Quilt is 70"x70".

There are 25 blocks in the quilt, each block uses one print.

Look at the quilt assembly diagram to see what block type (Whole, Half, Side or Corner) appears where then make your print selections before cutting the strips.
