CHEMICAL IDENTIFICATION:

Product Name: JC-1 Mitochondrial Membrane Potential Detection Kit
Catalog # JC100

Components:
Part# 4001: JC-1 Reagent (lyophilized)
Part# 3002: 10X Assay Buffer

Section 1 - Hazards Identification
Contains phosphate buffered saline (PBS). Irritant to eyes, skin, and respiratory system. Dilute solutions are less irritating.

Section 2 - Characteristics
10X APO LOGIX JC-1 Assay Buffer is a clear liquid; however, some salts may precipitate and form clear crystals at low temperatures.
Boiling point °f: No data available.
Vapor pressure (mm Hg): No data available.
Vapor density: No data available.
Solubility in water: Soluble at room temperature.
Specific gravity: Not applicable.
% Volatile by volume: Not applicable.
Evaporation rate: No data available.
pH: 6.9

Section 3 - Storage, Handling and Stability
10X APO LOGIX JC-1 Assay Buffer is stable for 18 months when stored at 2 C - 8 C. When diluted to 1X, store at 2 C - 8 C for 7 days. It will not decompose in a hazardous manner. Hazardous polymerization will not occur.

Section 4 - Safety Control Measures
Gloves and standard laboratory protective clothing and eyewear are recommended. Safe laboratory practices should be followed.
Section 5 - Health Hazard Data
May enter the body through ingestion, eye, and skin contact.

Section 6 - First Aid Measures
Remove contaminated clothing and shoes, and wash before reuse.

Skin: Wash skin thoroughly with soap and water.
Eyes: Flush with water for at least 15 minutes.
Ingestion: If conscious, give large amounts of water. Induce vomiting. Seek medical attention.
Inhalation: Remove to fresh air. If not breathing, administer CPR. If breathing is difficult, give oxygen.

Section 7 - Fire/Explosion Hazard Data
10X APO LOGIX JC-1 Assay Buffer is not flammable. It is neither a fire hazard nor an explosion hazard. Use any means suitable for extinguishing surrounding fire. It is not necessary to use any special firefighting procedures. Water spray, carbon dioxide, dry chemical powder or appropriate foam can all be used.

Section 8 - Accidental Release Measures
For release of large amounts of material, wear safety glasses and rubber gloves. Stop source of leak and isolate spill area. Collect liquid and flush down the drain with copious amounts of water or absorb with dry material (such as paper towels) and place in a regular waste container. Dispose of all waste in accordance with all national, state, and local regulations.

Part# 4001

Section 1 - Chemical Identification
Synonyms: JC-1 stock / JC-1 solution / JC-1
CAS #: 47729-63-5
Chemical Formula: 5,5’,6,6’-tetrachloro-1,1’,3,3’-tetraethylbenzamid- azolocarbocyanin iodide

Section 2 - Hazard Identification
Irritant to eyes, skin, and respiratory system. Dilute solutions are less irritating.

Section 3 - Characteristics
APO LOGIX JC-1 Reagent is an orange-red powder.
Boiling point °f: No data available.
Vapor pressure (mm Hg): No data available.
Vapor density: No data available.
Solubility in water: Very low.
Specific gravity: Not applicable.
% Volatile by volume: Not applicable.
Evaporation rate: No data available.
pH: Not applicable to a powder.

Section 4 - Storage, Handling and Stability
APO LOGIX JC-1 Reagent is stable for 18 months when stored at 2 – 8 °C and protected from light.
When reconstituted to 100X, store APO LOGIX JC-1 at -20 °C for 6 months protected from light.
When diluted to 1X, use APO LOGIX JC-1 reagent immediately. APO LOGIX JC-1 reagent is light sensitive. It will not decompose in a hazardous manner. Hazardous polymerization will not occur.

Section 5 - Safety Control Measures
Gloves and standard laboratory protective clothing and eyewear are recommended. Safe laboratory practices should be followed.

Section 6 - Health Hazard Data
May enter the body through inhalation, ingestion, eye, and skin contact.

Section 7 - First Aid Measures
Avoid prolonged exposure. Remove contaminated clothing and shoes, and wash before reuse.

Skin: Wash skin thoroughly with soap and water.

Eyes: Flush with water for at least 15 minutes.

Ingestion: If conscious, give large amounts of water. Seek medical attention.

Inhalation: Remove to fresh air. If not breathing, administer CPR. If breathing is difficult, give oxygen.

Section 8 - Fire/Explosion Hazard Data
APO LOGIX JC-1 reagent is neither a fire hazard nor an explosion hazard. Use any means suitable for extinguishing surrounding fire. It is not necessary to use any special firefighting procedures. Water spray, carbon dioxide, dry chemical powder or appropriate foam can all be used.

Section 9 - Accidental Release Measures
For release of large amounts of material, wear safety glasses and rubber gloves. Stop source of leak and isolate spill area. Collect material in an appropriate container and dispose with
regular trash. Wash exposed surfaces with acetone or alcohol and rinse with copious amounts of soap and water. Dispose of all waste in accordance with all national, state, and local regulations.
