S•K takes great care in the design and manufacture of our products to insure that we are producing the best quality and safest tools possible. Safety however is not just about how the tool is built. Proper use of the tool plays a

very large role in safety. S•K does not want anyone to be injured while using our tools. That is one of the reasons we do not condone misuse or abuse of our tools in our warranty policy. Below is a list of suggested safety

tips to assist you in the safe use of our tools. This is not an exhaustive list, however, so you should also rely on training, other safety information sources, your experience and common sense when using any tool.

HAND TOOLS

CAUTION!

- Chrome and Industrial finish hand tools can break if overloaded or used for the wrong application.
- Damaged or broken hand tools or accessories can cause bodily injury.
- Always wear safety goggles to protect your eyes.

HANDLES

CAUTION!

- Tool breakage and slippage can occur and bodily injury can result. Improper use and maintenance of tools increases risk of damage, breakage and slippage during use.
- Do not use pipes or other extensions to increase leverage on handles.

IMPACT DRIVERS

CAUTION!

- Impact drivers can cause tool breakage or flying objects, which can result in bodily injury.
- Always wear safety goggles to protect your eyes.
- Wear hearing protection.

PLIERS/CUTTERS

CAUTION!

- Never modify or alter pliers or any other tool.
- Do not use pipes or other extensions to increase leverage on pliers or cutting tools.
- Broken tips or cut materials can fly unpredictably and cause bodily injury.
- Always wear safety goggles to protect your eyes.

RATCHETS

CAUTION!

- Do not use pipes or other extensions to increase leverage on the ratchet or flex bar.
- Do not use chrome sockets or drive tools with impact or power tools. Such use damages the tool and may result in bodily injury.
- Always wear safety goggles to protect your eyes.

- Mismatched, dirty or partially worn parts can cause ratchet to slip or break, and bodily injury can occur. Use only the correct socket and extension parts with the ratchet.
- Do not clean ratchet by immersing in fluids. Non-sealed ratchet mechanisms can be cleaned by hand and lubricated with light oil..

SCREWDRIVERS

CAUTION!

- Do not use a screwdriver as a pry bar, chisel or punch. Damage to the product and injury to the user can occur.
- Do not use screwdrivers with plastic handles near live wires or for electrical testing. Plastic handles do not provide insulation from electrical current. For electrical applications, use only insulated screwdrivers designed for the purpose.
- Always use safety goggles to protect your eyes.

CHROME SOCKETS

CAUTION!

- Use only the proper type of socket for the application. All chrome-plated sockets are for hand use only. Do not use chrome sockets or drive tools with impact or power tools. Such use damages the tool and may result in bodily injury.
- Do not use pipes or other extensions to increase leverage on the ratchet.
- Always use safety goggles to protect your eyes.

IMPACT SOCKETS

CAUTION!

- Use only the proper type of socket for the application. All impact sockets are for use with impact drivers only. Do not use impact sockets with chrome ratchets or power tools. Such use damages the tool and may result in bodily injury.
- Do not use pipes or other extensions to increase leverage on the ratchet.
- Always use safety goggles to protect your eyes.

WRENCHES

CAUTION!

- Do not use pipes or other extensions to increase leverage on the wrench. Such use damages the tool, and may also result in bodily injury.
- Always wear safety goggles to protect your eyes.
- Do not over-torque.
- Mismatched, dirty or partially worn parts can cause wrench to slip or break, and bodily injury may result.

LIMITED LIFETIME WARRANTY

SK® Tools USA, LLC products, except as otherwise specified, are warranted under normal use and service against defects in materials and workmanship for the expected life of the tool. This warranty does not cover wear from normal use, or any problems caused by misuse, abuse, modification or improper maintenance of the tool.

EXCEPTION

For only a period of one year after the date of purchase, storage products, micrometer torque wrenches, dial torque wrenches, torque screw drivers and consumable products that are reasonably expected to be used up or damaged during use are warranted under normal use and service against defects in materials and workmanship. This warranty does not cover wear from normal use, or any problems caused by misuse, abuse, modification or improper maintenance of the tool.

EXCLUSIVE REMEDY

Your sole and exclusive remedy for any breach of this warranty is that S•K will, at its sole option, either repair or replace the defective tool, or refund your purchase price, if you return the tool to an authorized S•K warranty station. Contact SK® Tools USA, LLC Customer Service at 800-822-5575 to obtain information regarding authorized warranty stations. No consequential, incidental, special, or punitive damages, or damages for property loss or personal injury, can be recovered under this warranty.

ABUSE AND MISUSE

Abuse or misuse of any tool may cause serious or fatal bodily injury, as well as significant property or environmental damage. SK® Tools USA, LLC will not condone or support the abuse or misuse of any S•K product. Using a tool for the sole purpose for which it was designed is extremely crucial. Any tool that appears to have been used for any purpose other than that for which it is intended will not be accepted for warranty replacement, repair or reimbursement. Safety tips and disclaimers are found throughout the S•K product catalog and the SKtools.com website. S•K does not warrant abused and misused tools that could cause injury or threaten the safety of an individual or the environment.

TORQUE PRODUCT FACTORY REPAIR

Due to the wide variety of torque measuring and limiting devices that SK® Tools USA, LLC offers we utilize different service centers that specialize in each product category. Please refer to the chart below for specific warranty center or contact one of our S•K customer service representatives at 800-822-5575 for further assistance.

WARRANTY PROCESS

You may take your warranty item(s) to your local S•K dealer or you can visit our website, www.sktools.com and fill out our online warranty claim form.

If your warranty involves a ratchet or breaker bar please call first or email as it most likely can be fixed with a repair kit that we can send to you. Please note that you can request repair kits to be sent to you at any time.

For all other warranty inquiries, please contact:

Customer Service
Phone: 800-822-5575
Email: customerservice@skhandtool.com

Agents and distributors of S•K tools have no authority to make representations or warranties other than those contained in this warranty.

THIS LIMITED WARRANTY IS MADE IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL, WRITTEN, EXPRESSED, OR IMPLIED, OR STATUTORY, INCLUDING, BUT NOT LIMITED TO IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY. If you are a consumer this warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
