

# TPS Component Series Coco & Peat Extended Flower Feed Chart

**TPS**  
nutrients

Coco-Coir and Peat mixes are by far the most popular mediums with our growers. They're great for producing consistent crops, and allow growers 'near-hydro' control but with a greater buffer. In general, Coco based material need additional Calcium and Magnesium as these elements tie up in the medium. TPS Component Series was built for this and if you follow the feed chart then your plants will be lush and healthy.

Veg Coco/Peat Extended	(mL/Gallon)	Rooted Plant		Early Veg		Mid/Late Veg			
	Week	Wk 1	Wk 2	Wk 3	Wk 4	Wk 5	Wk 6	Wk 7	Wk 8
	Base A	2	2	3	3	4	4	6	6
Base B	2	2	3	3	4	4	6	6	
Silica Gold	2	2	2	2	2	2	4	4	
CalMag OAC	0	0.5	1	1	2	2	2	2	
N-Primer	2	2	4	4	4	4	4	4	
Root Boost	1	1	1	1	2	2	2	2	
Bloom	0	0	0	0	0	0	0	0	
Signal	0	0	0	0	0	0	0	0	
Canopy Boost Foliar Spray	5	5	10	15	15	20	20	20	

Bloom Coco/Peat Extended	(mL/Gallon)	Early Bloom			Mid/Late Bloom				Late Bloom		Flush	
	Week	Wk 1	Wk 2	Wk 3	Wk 4	Wk 5	Wk 6	Wk 7	Wk 8	Wk 9	Wk 10	Wk 11
	Base A	7	7	7	6	6	5	5	4	4	4	4 (opt)
Base B	7	7	7	6	6	5	5	4	4	4	4 (opt)	
Silica Gold	4	4	4	4	4	4	4	4	2	2	0	
CalMag OAC	2	2	2	2	2	2	2	2	1	1	0
