

# TPS Component Series Hydro and Deep Water Culture Autoflower Feed Chart

Hydro and hydro-hybrid systems are some of the most technical and sensitive methods of growing. Each grower's input water, strains, growing style, and environmental conditions will affect feed rates. See below for recommended feed charts, PPM levels, and feedwater pH. Please note, TPS Component Series is likely more bioavailable than other nutrients you've experienced before so we suggest trying a lower PPM (10-20%) than you are used to.

	(mL/Gallon)	Wk 1	Wk 2	Wk 3	Wk 4	Wk 5	Wk 6	Wk 7	Wk 8	Wk 9	Wk 10
10 Week Autoflower Hydro/DWC	Base A	3	4	5	6	6	6	6	6	5	4
	Base B	3	4	5	6	6	6	6	6	5	4
	Silica Gold	1	1	2	2	2	2	2	2	2	0
	CalMag OAC	1	1	1	1	1	1	1	1	1	0
	N-Primer	1	1	2	2	2	0	0	0	0	0
	Root Boost	1	1	1	1	1	0	0	0	0	0
	Bloom	0	0	1	1	2	2	2	2	1	0
	Signal	0	0	0	1	1	1	2	2	2	2
	Canopy Boost Foliar Spray	5	10	15	20	20	0	0	0	0	0

**For 8 Week Strains:** please cut out feed chart weeks 4 and 9.

**For 9 Week Strains:** please cut out feed chart week 9.
