

TPS

nutrients

Signal is a potassium supplement designed for use in indoor and outdoor growing environments. It is 100% water-soluble and provides immediate potassium for plant uptake.

Potassium is an important electrolyte in the flowering stage. Signal is an excellent choice for continuous feed systems where potassium is constantly required.

Guaranteed Analysis

Soluble Potash (K ₂ O)	3.1%
Magnesium (Mg)	0.5%
Sulfur (S).....	1.0%

Derived from: potassium hydroxide, magnesium sulfate

CAUTION: Harmful if swallowed. Avoid contact with skin and eyes, if contact occurs, thoroughly rinse affected area with clean water for several minutes. If irritation occurs, seek medical attention. This product is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required during the growth cycle.

Usage Instructions

Measure 1-4mL per gallon of water. Use with every watering during the mid and late flowering phases. Visit us online to learn more about application rates: tpsnutrients.com

STORAGE AND USE: Use as directed. Wear gloves when handling. Store in a cool, dark place, away from direct sunlight, and in original containers at temperatures between 50°F and 80°F (10°C and 27°C). Shake well before use. Never mix concentrated nutrients together before adding them to water reservoir. Mix with other nutrients only at time of application and in exact amounts required. Do not return mixed product to original container. Use all product within 12 months of original purchase. Keep away from children.

Not for human or animal consumption.

WARRANTY: The Manufacturer warrants only that this product is suitable for its intended use as a plant nutrient. Weather, crops, soil, and other conditions may vary results. The Manufacturer makes no warranty of any kind regarding results. Buyer and user agree to accept all liability associated with handling, use, and disposal of this product.
