

USAGE INSTRUCTIONS

Use with every watering for the lifespan of the plant.
To find out more information visit: tpsnutrients.com/one
Application amounts will vary based on each plant's needs.

GENERAL APPLICATIONS

Add TPS One at a rate of 5-15mL per gallon of feedwater then adjust pH to 5.8-6.2. Reservoir stable for one week.

GUARANTEED ANALYSIS

Total Nitrogen (N)	3.2%
2.2% Nitrate Nitrogen	
1.0% Ammoniacal Nitrogen	
Available Phosphate (P2O5)	6.5%
Soluble Potash (K2O)	4.1%
Calcium	1.0%
Magnesium	0.5%
Boron	0.002%
Copper	0.002%
Iron	0.01%
Manganese	0.007%
Sulfur	0.04%
Zinc	0.004%

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Microbes (cfu/mL)

B. Subtilis	30 mil
B. Laterosporus	15 mil
B. Licheniformis	30 mil
B. Amoliquefaciens	30 mil
B. Pumilus	15 mil
Mycorrhizae (4 strains)	1PP/ml ea.

Derived From: tri-potassium phosphate, di-potassium phosphate, mono-potassium phosphate, potassium nitrate, calcium nitrate, magnesium nitrate, urea triazone, boric acid, copper sulfate, ferric sulfate, manganese sulfate, zinc sulfate, kelp extract

Warranty: The manufacturer warrants only that this product is suitable for its intended use as a plant nutrient. The manufacturer makes no warranty of any kind regarding results. Buyer and user agree to accept all liability associated with handling, use, and disposal of this product.

TPS

nutrients

TPS ONE

From Veg to Bloom, **TPS One** is a one-part complete macronutrient, micronutrient, and microbe system. Here you'll find every mineral and microbe necessary for plants to thrive with 100% water-solubility and a low-molecular weight organic acid complex increasing nutrient uptake. TPS One is reservoir stable, all while providing immediate and balanced nutrition for plants from seedling through the end of bloom.

TPS One is an excellent choice for use in inert media such as coco coir, peat, and hydro, or it can be used in soil and amended soil. For use indoors, outdoors, or in greenhouses.

- Bioavailable phosphorus and potassium for robust blooms
- Short & long chain nitrogen sources for optimal veg and bloom
- Includes organic-acid chelated calcium and magnesium
- More complete than powders AND 100% water soluble
- Amino acids and carboxylic acids for terpene support
- Over 120 million microbes per mL

Storage and Use Precautions: Shake before use. Use as directed. Store in a cool, dark place away from direct sunlight and in original containers at temperatures between 50°F and 80°F (10°C and 27°C). Shake well before use. Never mix concentrated nutrients together before adding them to water reservoir. Use all of this product within 12 months of original purchase. *Keep away from children. Not for human or animal consumption.*

Signal Word:

Warning

Hazard statements:

Causes skin irritation. Causes serious eye irritation.

Precautionary Statements - Prevention:

Wash face, hands and any exposed skin thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary Statements - Response:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF ON SKIN: Wash with plenty of water

Wash contaminated clothing before reuse

If skin irritation persists: Get medical advice/attention.
