

# TPS One Coco and Peat Autoflower Feed Chart

Soiless media such as coco coir and peat are the most popular for growers who like control but appreciate the buffer of a neutral media. TPS One contains an abundance of minerals needed to grow from veg to the end of bloom in neutral media, including ample amounts of Calcium and Magnesium.

TPS One 10 Wk. Coco & Peat (mL/Gal)	Wk 1	Wk 2	Wk 3	Wk 4	Wk 5	Wk 6	Wk 7	Wk 8	Wk 9	Wk 10
	5	5	8	8	10	15	15	15	10	10

**For 8 Week Strains:** please cut out feed chart weeks 4 and 9.

**For 9 Week Strains:** please cut out feed chart week 9.
