

ND FILTER LINE UP

	Package	Purpose of Use Effect	ND(Density)	Specifications Coating	Specifications Frame and others	
Round Type		Professional type with a wide range of NDs	ND8(0.9)/ND16(1.2) ND32(1.5)/ND64(1.8) ND500(2.7)/ND1000(3.0) ND4000(3.6)/ND32000(4.5)	 	 	P.17
		Standard type for common use	ND8(0.9) ND16(1.2) ND32(1.5) ND64(1.8)		 	P.18
		Solar Eclipse Shooting	ND100000(5.0)		 	P.21
		Suitable for videographers with high quality	ND2.5(0.4) to ND256(2.4)	 	 	P.19
		Suitable for photographers with high quality	ND40(1.6) to ND4000(3.6)	 	 	P.19
		Suitable for getting VND shooting started	ND2.5(0.4) to ND500(2.7)		 	P.19
		Hybrid filter that combines CPL and ND into a single system	ND16(1.2) ND32(1.5) ND64(1.8)	 	 	P.20
		Instant attachment to the lense	ND16(1.2) ND64(1.8)	 	 	P.31
Square Type		Suitable for scenes which have no clear horizontal line	ND4(0.6) ND8(0.9) ND16(1.2)	 		P.25
		Suitable for scenes which have a very definite horizontal line	ND4(0.6) ND8(0.9) ND16(1.2)	 		P.25
		Suitable for sunset or sunrise scenes	ND4(0.6) ND8(0.9) ND16(1.2)	 		P.25
		Suitable for sunset or sunrise scenes with fine-tuning	ND4(0.6) ND8(0.9) ND16(1.2)	 		P.25
		Suitable for adding to GND with fine-tuning	ND4(0.6)/ND8(0.9) ND16(1.2)/ND32(1.5) ND64(1.8)/ND500(2.7) ND1000(3.0)/ND4000(3.6) ND32000(4.5)	 		P.26
		For videographers like Yutuber	0.3/0.6/0.9 1.2/1.5/1.8			
				Ultra-scratch resistant performance verified by new ND coating	Easy-handling by edge-sealing	

List of Specification Icon

Coating

- Antistatic Coating**
Prevents sticking of dirt and dust caused by static electricity.
- Water Repellent Coating**
High water repellent effect repels water droplets.
- Oil Repellent Coating**
High oil repellent effect prevents various stains, including fingerprints.
- AR Multi Coating**
Multi-layer coating reduces surface reflections.

* Magnetic Slim ND is a member of the Magnetic slim filter family. It is used together with other magnetic slim filters on the lens. See page 31 for details.
 ** These GND /ND filters are used with M100 magnetic filter holder. See page 23 for details.
 *** WSND filters are easy to use for those starting out in the business of making simple video productions. For more advanced filters like Cinematography, please visit our dedicated web page, marumi-filter.co.jp/cinetv/en/

Frame Structure

- Ultra-Thin Frame Design**
Thin frame design makes vignetting extremely low.
- Satin Finish**
Matte coating minimizes reflection.
- Knurling**
Designed for easier handling.
- Lens Cap and Hood Attachable**
Lens cap and hood can be attached.
- Magnetic Frame**
Makes attachment to / detachment from the lens in an instant.
