

Go Series Seated Leg Curl

GO-S72

Our seated leg curl offers a simplified way for new users to strengthen their lower body. Space-saving design includes an extra-large seat for support, a self-adjusting ankle pad for comfortable starts, and adjustable range of motion so users can build strength in a way right for their body.

- Low stack height allows users and staff to easily see through a facility.
- Neutral hand hold positions increase user comfort and make thigh pad adjustment simple.
- Large oversized seat provides comfort and confidence during use.
- Compact footprint, combined with a stack-to-stack design, allows for more products in a smaller space.
- Large color-coded placard helps users identify muscles targeted (upper, core, lower body), as well as start/finish positions and adjustments (if applicable).
- Optional Incremental Weight (GO-IW) available for small 2.3-kg / 5-lb. weight increments.
- Self-aligning ankle pad improves comfort without requiring user adjustment.
- Range of motion adjustment allows users to find a comfortable start position for their bodies.

| ADJUSTMENTS | |
|---|--|
| USER ADJUSTMENT RANGE | 5-position ankle pad, 9-position thigh pad |
