

SWEET BREW® *at Home*

BREW INSTRUCTIONS, CLEANING & ORDERING

STEP 1: Place tea brewer on a dry, level, heat-resistant surface, away from any edge. **DO NOT PLUG IN.** Fill the pitcher with fresh cold water to the “Water” line. Lift and open the brewer lid and pour the water into the reservoir. **Do not fill past the “MAX” line indicator on the side of the brewer.**

STEP 2: Swivel shower nozzle to allow access to brew basket. Remove cellophane wrapper and place **unopened pouch** into the brew basket. Swivel shower nozzle over pouch and close lid.

STEP 3: Move selector lever to arrow marked “Sweet Spot”.

STEP 4: Fill pitcher with ice to the “ICE” line and add water* to the “WATER” line. Ensure top is on pitcher. Place in brewer.

*For SWEETER tea use less water.
*For LESS sweet tea use more water.
(Keep ice at same level.)

STEP 5: Plug in the brewer and press the “Brew” button. The light will illuminate, letting you know the power is on. (The tea brewer will automatically shut off after brewing.)

Wait for the brew cycle to complete (12-15 minutes) or when sweet tea stops dripping into pitcher.

Caution: liquid will be hot while still dripping!

NOTE: The “Brew” button does not function as an OFF button. To turn OFF mid-brew, unplug the brewer.

STEP 6: When the brew cycle is complete—remove the pitcher from the drip tray and **STIR**. Serve your **FRESH BREWED** sweet tea over ice and **ENJOY!**

Each pouch makes 90 fluid oz. | Store refrigerated. | Best if used within 5 days.

CLEANING

- Unplug the brewer and allow it to cool before cleaning or storing. (For safety keep the brewer UNPLUGGED until ready to use.)
- **Exercise caution when opening brewer lid—contents may be HOT.** Discard the brewed tea pouch into the waste bin.
- Pitcher and brew basket can be washed under running water and mild soap. The pitcher is also dishwasher safe.
- To clean the brewer, wipe surfaces with a soft, damp cloth. **NEVER SUBMERGE IN WATER.**
- Dry all parts thoroughly before storing or using again.
