## Preparation and storage instructions

- Please follow the preparation and dosage instructions exactly. The correct dosage ratio will always give your baby the nutrients it needs. Improper preparation or storage can lead to adverse health effects due to the growth of undesirable germs.
- Freshly prepare each feed and feed baby immediately. Do not re-use any excess. Always thoroughly clean the bottle, teat and ring.
- Always close the opened package tightly, store in a dry place and use within 2 weeks.
- Protect against heat. Store the measuring spoon clean and dry.
- Use only the enclosed measuring spoon for preparation.
- Never heat baby formula in the microwave (overheating hazard).

## IMPORTANT NOTE

Breast milk is the best food for your baby. We encourage you to exclusively breast-feed for the first six months of life. This is also the recommendation of the World Health Organization (WHO).
