

The 3M™ PPS™ Series 2.0 Spray Cup System

Reinvented from connection to cup.

Improved six ways.

Adopted by painters in every corner of the globe, the 3M™ PPS™ System has been a major boost to painting productivity and quality for nearly 20 years. Now 3M has made it even better in six critical areas, from top to bottom.

3 **Domed Lid with Full-Diameter Filter.** More paint below the filter improves flow and consistency, while reducing spitting from start to finish.

4 **New Cup in Every Lid & Liner Kit.** Start with a clean cup more often, reducing paint build-up. On-cup ratios and fill markings eliminate traditional mixing cups.

5 **Access Window.** Allows you to hold the liner for cleaner, easier lid removal when refilling. Also easier to check paint levels.

6 **Larger Cup Sealing Plug.** Allows you to seal and protect coatings upside down with greater stability when not in use. Use fewer lids by keeping filters wet.

1 **Wide Spout Adapter with Four-Point Connection.** Maximises stability while spraying. Makes cleaning easier.

2 **Quarter-Turn Lid Locking System.** Comes with every lid. Stays cleaner. Locks faster. Fewer parts to keep track of.
