3M Performance Masking Tape Range

3M™ Scotch® Premium Grade Masking Tape

3M's highest performing premium grade masking tape designed to exceed the needs of today's collision repair shops. This unique bright green coloured tape is highly conformable and has a specially formulated adhesive which eliminates the need for clean-up on rubber mouldings and painted surfaces, removes cleanly for up to 5 days after application.

233+ performs consistently under a variety of climatic conditions and provides outstanding paint lines when spraying both solvent and water based products.

3M™ Automotive Refinish Masking Tape

3M™ Automotive Refinish Masking Tape 388N is a yellow crepe-paper tape designed specifically for the critical paint masking processes used in the collision repair industry.

It features a rubber-based adhesive and flexible crepe-paper construction for excellent conformability and adhesion.

Yellow tape resists moisture, solvents and outdoor exposure. It leaves clean paint lines without build up.

3M™ Performance Automotive Masking Tape

A high performing masking tape suitable for critical automotive paint spraying and masking. This natural coloured tape is high in density, tear resistant and has a clear durable film formulated to provide excellent paint overspray adhesion.

A conformable tape with a rubber base adhesive offering clean removal for up to 1 day with superior paint lines.

This is suitable for a variety of climatic and operating conditions and delivers exceptional results.

New Product

3M™ Automotive Refinish Masking Tape

A new mid-tier alternative to meet your critical masking needs.

3M™ Automotive Refinish Masking Tape 388N is a yellow crepe-paper tape designed specifically for the critical paint masking processes used in the collision repair industry. It features a rubber-based adhesive and flexible crepe-paper construction for excellent conformability and adhesion. Yellow tape resists moisture, solvents and outdoor exposure. It leaves clean paint lines without build up.

The crepe-paper backing on 3M™ Automotive Refinish Tape offers good conformability, so you can stretch and manipulate the tape to fit curves and contours without tearing. The thin flexible backing heightens the ability of the tape to conform and produce sharp, clean paint lines. 3M™ Automotive Refinish Masking Tape provides clean, fast removal and is designed to meet today's paint technician's requirements for masking before painting.

This tape can resist temperatures up to 121 degrees Celsius for up to 30 minutes. Once you're done painting, the tape removes cleanly and easily, in one piece – leaving behind no adhesive residue. 3M™ Automotive Refinish Masking Tape helps create smooth and precise paint lines.

Part Number	Colour	Size
6652	Yellow	18mm x 55M
6653	Yellow	24mm x 55M
6654	Yellow	36mm x 55M
6656	Yellow	48mm x 55M
