Primers & Surfacer

AT305 Auto 1K Etch Primer Light Grey

AT305 Auto 1K Etch Primer is a high performance polyvinyl butyral and epoxy based, self-etch coating formulated to provide adhesion and anti-corrosive properties on ferrous metals, zinc coated steels (including galvanized iron) and non-ferrous metals such as aluminium.

It has a smooth, matte surface with good covering power and functions by adhering to the base surface and providing good adhesion for subsequent finishing coats such as 2-pack polyurethanes, enamels and lacquers.

Ratio: 1K
Hardener: N/A
Reducer: AT305
Can sizes: 1L, 4L, 20L

AT820 Auto 2K All Purpose Primer Surfacer

AT820 Auto 2K All Purpose Primer Surfacer is a Refinish Quality, high performance, high solids, 2K Acrylic Polyurethane Primer Surfacer specifically designed to give excellent filling properties & appearance under all basecoats & topcoat Systems.

It is specifically formulated to meet the high-performance requirements of today's Refinish Quality Solvent-borne & Waterborne Basecoat & 2K Low baked Enamel Topcoat systems.

AT820 gives extra film build, fast drying and sanding properties and delivers excellent adhesion & gloss holdout qualities. AT820 is based on the latest acrylic-isocyanate technology.

Ratio: 4:1
Hardener: AT820 Fast, Medium, Slow
Reducer: AT650 Fast, AT651 Medium, AT652 Slow
Can sizes: 4L

AT825 Auto 2K Wet On Wet Primer Surfacer Grey

AT825 Auto 2K Wet On Wet Primer Surfacer Grey is a Refinish Quality, high performance high solids, 2K Acrylic Polyurethane Primer Surfacer specifically designed for 'wet on wet' applications when fast spot & panel repairs are needed or over new fully cured electro-coat panels which require priming prior to basecoat or topcoat application.

This product gives fast drying, excellent filling properties & appearance under all basecoats & topcoat Systems. It is specifically formulated to meet the high-performance requirements of today's Refinish Quality Solvent-borne & Waterborne Basecoat & 2K Low baked Enamel Topcoat systems.

AT825 gives high build film build in one coat applications, fast drying, no need to sand prior to topcoat if applied as wet on wet and delivers excellent adhesion & gloss holdout qualities and is based on the latest acrylic-isocyanate technology.

Ratio: 4:1
Hardener: AT825 Fast, Medium, Slow
Reducer: AT650 Fast, AT651 Medium, AT652 Slow
Can sizes: 4L

ATE215 Auto 2K Wet On Wet Epoxy Primer Light Grey

ATE215 2K Wet On Wet PU Primer Surfacer is a Refinish Quality, high performance "High solids", Auto 2K Wet On Wet Epoxy Primer specifically designed for wet on wet applications when fast spot & panel repairs are needed or over new fully cured electro-coat panels which require priming prior to basecoat or topcoat application.

This product gives fast drying, excellent filling properties & appearance under all basecoats & topcoat Systems. It is specifically formulated to meet the high-performance requirements of today's Refinish Quality Solvent-borne & Waterborne Basecoat & 2K Low baked Enamel Topcoat systems.

ATE215 gives high build film build in one coat applications, fast drying, no need to sand prior to topcoat if applied as wet on wet and delivers excellent adhesion & gloss holdout qualities.

Ratio: 4:1
Hardener: ATE215
Reducer: ATE100
Can sizes: 4L

PE801 Auto 2K All in One Polyester Primer Surfacer

PE800 Series All In One Automotive Polyester Primer Surfacer is used for priming substrates before application of the 888 Automotive Clear over Base System.

It has been specially formulated to give excellent adhesion to correctly prepared substrates such as Metal, Fibreglass, Plastic and Wood.

It exhibits excellent sanding properties to allow it to be recoated with a number of topcoats including Acrylics, Synthetic Enamels, Lacquers and Two Component Polyurethanes.

Available in Grey, Black, Red, Buff, White, Dark Grey & Blue.

Ratio: 4:80ml
Hardener: PE800
Reducer: PE100, PE105
Can sizes: 4L

Basecoat

AT888 Auto 1K Premium Basecoat

AT888 Base Coat is a high performance acrylic modified basecoat. Its high performance formulation is very easy to use and features a fast dry time, excellent flow, high coverage and excellent blending characteristics.

We can make this paint in a variety of metallics and pearls upon request or even colour match a provided sample.

Topcoats & Clearcoats

AT100 Auto 2K Premium Matt Black

AT100 Auto 2K Premium Matt Black is a 2-pack coating designed to maintain a superior appearance for the longest period of time on automotive trim & components applications.

Ratio: 4:1
Hardener: AT100
Reducer: AT650 Fast, AT651 Medium, AT652 Slow
Can sizes: 4L

AT150 Auto 2K Premium Gloss

AT150 Auto 2K Premium Gloss is a 2-Component UV stabilised Acrylic Polyurethane, formulated to be applied at higher than normal solids to give maximum levels of gloss and protection.

Available in Clear, White, Jet Black.

Ratio: 2:1
Hardener: AT150
Reducer: AT650 Fast, AT651 Medium, AT652 Slow
Can sizes: 4L

AT883 Auto 2K Clear

AT883 Clear is a Premium Quality 2-pack high gloss, isocyanate cured acrylic polyurethane clear coat based on the latest acrylic resin technology. The durable coating delivers exceptional reproduction of OEM Original Finishes, excellent weathering and performance properties (when applied over solvent-borne & waterborne basecoats) and is suitable for use where a premium quality refinish grade 2K PU Clear Coat coating is required.

AT883 Clear will reproduce original finish gloss, flow and image clarity with minimum effort & in the shortest possible time. This clear coat is particularly suitable for use for panel repairs, large sections, blending & all over repaints.

Ratio: 3:1
Hardener: AT883 Ultra Fast, Fast, Medium, Slow (1.67L)
Reducer: AT651 Medium
Can sizes: 5L

AT884 Auto 2K All Purpose Clear

AT884 All Purpose Clear is a Refinish Quality 2-pack high gloss, isocyanate cured acrylic polyurethane clear coat based on the latest acrylic resin technology. The durable coating delivers excellent weathering and performance properties (when applied over solvent-borne & waterborne basecoats) and is suitable for use where a high quality refinish grade 2K PU Clear Coat coating is required.

AT884 will reproduce original finish gloss, flow, and image clarity with minimum effort & in the shortest possible time. This clear coat is suitable for use for spot & panel repairs, large sections, blending & all over repaints.

Ratio: 4:1
Hardener: AT884 Ultra Fast, Fast, Medium, Slow (1.25L)
Reducer: AT651 Medium
Can sizes: 5L

Reducers & Cleaners

Auto All Purpose Wax & Grease Remover

Wax & Grease Remover is used for degreasing surfaces in preparation for painting.

Available in AT311 Fast & AT312 Regular.

Volume: 4L, 20L

AT316 Auto All Purpose Universal Cleaner

AT316 is used in the automotive industry as a universal cleaner and degreaser with an anti-static effect. It is used for both solventborne and waterborne applications as well as plastics.

Volume: 750ml, 5L, 20L

AT550 Auto Basecoat Reducer

AT550 is used in the reduction of automotive basecoats to consistency suitable for use through conventional spray gun systems and for the clean up of equipment.

Volume: 4L, 20L

AT650 Auto 2K All Purpose Reducer

Used in conjunction with various automotive products. Available in AT650 Fast, AT651 Medium, AT652 Slow.

Volume: 4L, 20L

AT318 Auto All Purpose Anti-static Cleaner

A solvent based cleaner which reduces and cleans static charge from plastic substrates.

Volume: 4L, 20L

ATE100 Auto 2k Wet On Wet Epoxy Primer Reducer

Suitable for the reduction of ATE215 2K Wet On Wet PU Primer Surfacer.

Volume: 4L
