

Recommended Use:

- Cutting / Heavy Stock Removal on Metal & Fiberglass
- Auto body panels, frame rail, exhaust pipes, clamps & rusted bolts
- Never use cut-off wheels for grinding
- Cut-off wheels are attached to a cut-off wheel tool (sold separately) and must always be used with a wheel guard for safety.

3M Cubitron II Cut-Off Wheel

SKU: GABR3M33456

With Precision Shaped Grain, these discs are engineered to cut faster than competitive ceramic products offering significant productivity gains. The collision repair professionals value its fast cutting action on heat-sensitive metals and its cutting efficiency, yielding 2 to 7x more cuts than conventional cut-off wheels in many cases.

Backing Material: Film

Centre Hole Diameter: 9.398 mm

Attachment Type: Hook & loop

Coat Type: Closed coat

Industries: Cabinetry, Custom Woodworking and Millwork, Furniture, Primary Wood and Panel Processing

Max Speed: 12,000 RPM

Mineral Type: Aluminum Oxide

Machines: Random Orbital Sanders

For Use On:

- Composites
- Paint
- Solid Surface
- Topcoats

Use: Wet or dry

Pack Size: Single

3M Trizact Hookit Film Disc - 150mm

Manufactured using proprietary micro-replication technology where micron-graded oxide particles are formed into tiny pyramids of abrasive mineral and then coated on a film backing. As these pyramids wear, fresh, sharp mineral is continually exposed to produce a consistent cut and fine finish.

Trizact abrasives produce a finer finish, achieve fast results, and last long. The Trizact Hookit Film Disc is suitable for use on a variety of solid surfaces, topcoats, and to accommodate most finishes.

With 3M Hookit attachment system for quick mounting and removal and to hold the disc securely in place during use on rotary or random orbital tools. They can be removed cleanly and easily, and can be re-used for the life of the disc. This disc can be run wet or dry.

- Predictable finishes, improved, consistent results
- Creates high gloss level for glass defect repair and solid surface finishing
- Produces a high-gloss finish
- Suited for mini random orbital sanders to produce a polish-ready finish
- Finer finishes than paper & film-backed abrasives

3M 260L Hookit Discs - 150mm

SKU: GABR3M15H1500

The discs combine a durable film backing with a fast cutting, long lasting aluminium oxide mineral abrasive for a consistent finish. It's ideal for refined automotive finishing work.

- Fast cut and long disc life
- Keep dust away with 15 hole design
- Change discs easily with Hookit system

Grits Available: 1500 grit only
Holes: 15
Abrasive Material: Aluminium Oxide
Suggested Applications:
 Automotive applications including blending, scuffing, paint prep and removing paint defects.
Pack Size: Pack of 50

Mirka Iridium Sanding Discs

A premium paper abrasive for universal sanding. Perfected for speed and efficiency, it has a mix of ceramic and aluminium oxide grains with precision coating that prevents clogging. It practically repels dust and lifetime is increased as the grains stay sharp for longer. Iridium delivers amazing results on both soft and hard surfaces, making it the ideal paper abrasive choice for professionals in any industry. Perfect for paint removal to primer sanding, Iridium is an excellent automotive sandpaper. When used together with our Mirka sanding tools and dust extractors you can enjoy a dustless work environment.

Smirdex 750 Velour Net Abrasive Discs

The net fabric structure permits the maximum absorption of sanded particles, providing dust-free sanding and cleaner surfaces. This contributes to a cleaner work environment. Smirdex Net delivers better productivity and profitability since clogging is minimized, offering the possibility of higher performance and better surface finishing.

Thanks to the ceramic grains it contains, Smirdex Net is ideal for tougher and more demanding applications such as hard wood and other surface materials. It also offers an excellent performance and lifespan on primer sanding.

SIA 1913 Waterproof Sandpaper

As a leading wet use abrasive, the 1913 siawat aluminium oxide series has been producing outstanding results for years thanks to such outstanding properties as high stock removal rates, optimal water resistance, long life and flexibility.

Materials: Aluminium oxide, Silicon carbide
Use: Colour, Primer filler, Primer coat, Epoxy primer coat, Old lacquer, Lacquer, Body filler and Plastics.

Applications:

- Sanding off coatings and impurities
- Sanding out unevenness at the edges of repaired surfaces
- Flattening body filler and primer filler
- Fine sanding primer filler
- Keying old and new lacquers
- Paint runs, orange-peel, dust removal

Features:

- Highly adaptable to contours
- May be used wet or dry
- Ongoing market-leading wet abrasive

3M Scotch-Brite Multi-Flex Rolls

3M Scotch-Brite Economic Multi Flex Rolls work quickly and economically in sanding sealer, denibbing, defuzzing, highlighting and topcoat finishing applications (both solvent and water-based). Extremely "scrunchable". Can be folded, stacked, or rolled.

Mineral Type: Silicon Carbide
Dimensions: 203 mm x 6 m
Pack Size: 60 perforated sheets per roll

Grit	Colour	SKU	Price
Ultra Fine	Grey	GABR3MGREY	
Very Fine	Maroon	GABR3MMAROON	

Attachment Type: Hook & Loop
Backing Material: Film
Mineral Type: Aluminum Oxide
Dimensions: 171 mm x 139.7 mm
Sanding Method: Hand
Sanding Surface: Clear Coat
Wet or Dry: Wet or Dry
Grit: 600 grit
Pack Size: Pack of 25

3M 270J Hookit Flexible Abrasive Hand Sheet

SKU: GABR3M34339

3M Hookit Flexible Abrasive Hand Sheets feature a very thin, extremely flexible film backing that conforms effortlessly to tools and contoured surfaces.

A softer, closer “feel” helps you minimize burn-through for longer sheet life and to achieve more refined finishes. And Hookit sheets can be quickly wrapped around accessory pads or attached to tools for total versatility.

BULK PRICES AVAILABLE

Dimensions: 114 mm x 139.7 mm
Mineral Type: Aluminum Oxide
Use: Suitable for wrapping around hand tools
Packaging: 20 sheets per roll (per box)

3M Grippy Sanding Cloths

3M Grippy Sanding Cloths are designed for hand sanding application in paint preparation and paint finishing processes.

They combine excellent cut and finish performance with high flexibility, conformability and superior grip allowing the user to hold the product easily with or without an accessory in wet, dusty environments or even oily surfaces. Grippy provides a unique and soft feel and is excellent for sanding panel edges and parts that involved hard-to-reach areas.

3M Cubitron II File Belt 786F

3M Cubitron II File Belt 786F is a 3M best-in-class abrasive belt, designed for use with the 3M File Belt Sander, for tasks like grinding out rivets and removing spot welds. 3M Precision Shaped Grain is resin-bonded on a heavy duty backing for a more consistent finish, cooler operation and two times more belt life. The resin bond and a grinding aid keep this belt cutting cool and sharp.

Ideal for tough detail work like cleaning, deburring, blending and finishing as well as working in small confined spaces. The exceptionally fast cut and long life of 3M ceramic abrasive grain enable this slim belt to accomplish a remarkable degree of work.

- Grains of ceramic/aluminum oxide blend are precisely-shaped, uniform and vertically oriented
- Slices through hard metal for fast cut
- Cubitron II abrasives run cooler, reducing risk of metal discoloration and heat related stress cracks
- Cooler running on high-strength steel
- Long-lasting and performs consistently
- Easily grinds out rivets and spot welds

Mirka Abralon Sponge

Abralon is a unique multi-functional patented sanding material developed for flexible sanding of both smooth and profiled surfaces. Abralon creates a smooth sanding pattern on angled surfaces and edges, while minimising the risk of pressure marks. The open cell structure is used to keep the water in Abralon during the sanding operation.

Grain: Silicon carbide
Bonding: Special resin
Backing: Knitted fabric on foam
Coating: Special ABRALON method
Colour: Grey
Applications: The perfect sanding and processing material with versatile possibilities on surfaces as new and old lacquers, plastics, primers and fillers. Abralon is used for conditioning a surface either as a pre-treatment prior to painting and lacquering, for removing oxides or for giving an attractive surface structure. Abralon is mainly used with wet sanding, but can also be used as dry in coarser grits.

Mirka Handy Sanding Block

SKU: GPAD8391200111

Perfect for putty sanding because it reduces the risk of tilting during use. 20mm hose connection and an adjustable suction valve & soft grip.

Suitable for: Multiple operations from paint stripping to lacquer & paint sanding
Holes: 34
Use with:

- Abranet abrasives and 15-hole 150mm discs
- 20 mm x 4 m hose (8391112011)

Mirka Roundy Dust-Free Hand Block

SKU: GPAD9190143011

Ergonomically designed to fit into the palm of the hand and is suitable for multiple operations.

Holes: 34
Includes:

- Ergonomic hand block
- Hose
- 5 x P120 Abranet strips
- 5 x P180 Abranet strips
- 5 x P240 Abranet strips

Mirka Roundy Kit

SKU: GABRMIRKIT00ROUND

Ergonomically designed to fit in the palm of the hand, suitable for multiple operations from paint stripping to lacquer & paint sanding. Practical, for use with Abranet abrasives and 15-hole 150mm discs, can wrap around sides to reach corners.

Use:

- For smaller surfaces and difficult-to-reach areas
- Connected by hose to a dust extraction system

Type: Grip abrasive
Holes: 13

Mirka Sanding Block 70 x 125mm

SKU: GPAD8391400111

The smallest hand sanding block in the premium range with an ergonomic shape and low profile.

Type: Grip abrasive
Holes: 40
Includes:

- Hand block body 70 x 198 mm
- Hose adapter Ø 20/28 mm outer diameter
- 4 changeable plates (Convex with 160 mm, Concave with 52 mm, Concave with 100 mm and Flat)

Mirka Sanding Block Kit

SKU: GPAD8391520111

A multipurpose tool conceived for sanding on concave, convex and flat shaped surfaces thanks to special plates attached to a hand block body.

3M Back up Pad - 100mm

SKU: GPAD3M05503

Reinforced system with a diamond-clad pad on a back with easy adhesion.

Diameter: 100 mm
Use: Fine grinding many different hard-sanded materials
Features:

- Sustainable and cost-effective
- Simple adhesion for maximum efficiency

3M Hookit Disc Pad - 150mm

SKU: GPAD3M20465

For aggressive flat sanding, constructed from firm density foam with a 35-degree blunt tapered edge for added durability. The multi-hole pattern works with a vacuum to help eliminate dust.

Center Hole Diameter: 15.748 mm
Density Rating: Firm
Max Rpm: 12,000
Number of Holes: 53
Thickness: 9.39 mm
Thread Size: 5/16-24 EXT
Diameter: 152.4 mm

Festool Fastfix Hard High Temp Backing Pad - 125mm

SKU: GPAD492127

For flat surfaces and narrow edges with a hardness grade of H-HT. Sanding pads will eventually fatigue and require replacement, therefore it is advisable to keep a fresh pad at hand to avoid a break in work.

Hardness Grade: Hard
Connecting Thread: FastFix
Size: 125 mm
Suitable for: RO 125
Features:

- Hi Temperature resistant
- StickFix Hook & loop fastener for quick & efficient abrasive changes

Festool M4 Backing Pad - 125mm

Festool pads feature the StickFix hook and loop design for quick and efficient abrasive changes, and enable re use of partially used abrasives.

Connecting Thread: M4
Size: 125 mm
Suitable for: ETS 125

Hardness	Use	SKU	Price
Supersoft	For sanding profiles and contours.	GPAD492282

Hard	This hard high temperature backing pad is suitable for sanding flat surfaces and narrow edges.	GPAD202460	

Hardness Grade: Soft

Features:

- Quick abrasive changes
- Turbo dust extraction maximizes dust removal, and helps the tool run cooler, extending pad and abrasive life

Festool Stickfix Backing Pad

StickFix hook and loop design for quick and efficient abrasive changes. This enables re use of partially used abrasives.

Holes	Dimensions	Description	Suitable for	SKU	Price
12	80 x 130 mm	Soft pad for consistent sanding results over your entire surface, especially on flat surfaces and narrow workpieces.	RTS 400 REQ, RS 400	GPAD489252	
8	93 x 175 mm	Soft pad for consistent sanding results on broad, flat surfaces such as sheet goods with thin veneers or solid wood panels.	RS 3	GPAD483905	
	115 x 221 mm		RS 100 CQ, RS1	GPAD488226	
	115 x 225 mm		RS 100 CQ, RS 200, RS 2	GPAD483679	

Hardness Grade: Soft

Holes: 8

Size: 93 x 175 mm

Suitable for: RS 3

Features:

- Non damaging edge
- Auxiliary paper clamps
- Turbo dust extraction maximizes dust removal, and helps the tool run cooler, extending pad and abrasive life

Festool Rubber Backing Pad

SKU: GPAD489630

Consistent sanding results on broad, flat surfaces, or against edges. This pad features auxiliary paper clamps so you can use your standard sheet abrasives to effectively sand broad, flat surfaces.

Dimensions: 100 x 150 mm

Hardness: Soft

Connection: Stickfix for quick abrasive changes

Materials: A highly resilient, heat resistant MPE foam is utilized in all our pads

Festool Delta Stickfix Backing Pad

SKU: GPAD493723

Standard soft replacement pad for consistent sanding results in corners and hard to reach areas. All Festool pads are designed with dust extraction in mind, to work cleaner, produce a better finish and extend the life of your abrasives and pads.

SANDING | BACKING PADS

now available

Mirka Quick Lock Hard Backing Pad - 32mm

SKU: GPAD8294598511

Quick Lock pad 32mm Grip hard.

Hardness: Hard
Dimensions: 32 mm
Suitable for:
 • ROS 150NV
 • AOS 130NV
 • AOS-B 130NV
 • AROS-B 150NV

Mirka Medium Backing Pad - 77mm

SKU: GPAD8294791211

Backing pad medium for grip disc, delivered with one pad protection disc including user instructions.

Hardness: Medium
Grip: 1/4"
Holes: 6
Size: 77 mm

Mirka Medium Backing Pad 28 Hole - 125mm

SKU: GPAD8292502511

Fits all Mirka 150 mm (6") sanders. This 130g backing pad gives you the ability to switch sizes and use 125 mm (5") sanding discs.

Hardness: Medium
Grip: 5/16"
Holes: 28
Dimensions: 125 mm
Suitable for: Deros 650

Mirka Medium Backing Pad 48 Hole - 150mm

SKU: GPAD8292605011

A 150 mm (6") backing pad with a central air inlet. The air channels leading to the centre of the backing pad has an increased air flow and therefore the dust is removed efficiently.

Hardness: Medium
Grip: 5/16"
Holes: 48
Dimensions: 150 mm
Suitable for: Deros 650

Mirka Hard Backing Pad - 150mm

SKU: GPAD8292605021

Recommended for heavier sanding applications where higher stock removal is needed.

Hardness: Hard
Grip: 5/16"
Holes: 48
Dimensions: 150 mm
Suitable for:
 • Deros 650
 • Ros 650

PREDATOR
 TEXTURED PROTECTIVE COATING

BEWARE!
 THE RESULTS WILL ASTOUND!

Hardness: Medium
Grip: 5/16" + M8
Holes: 61
Dimensions: 150 mm
Suitable for: Many 150mm machines including Festool RO 150, ETS 150
Includes: Delivered with 1 x 150 mm pad saver.
Note: Not recommended to be used with 150 mm ROS machines, because the combination of Unipad + wide / Abranet shroud machines does not give the optimal dust extraction.

Mirka Medium Unipad Backing Pad - 150mm

SKU: GPAD8295494111

Abranet medium density Unipad 150 mm (6") for all hole combinations. This Abranet Unipad is optimized for flat surfaces and has a high edge durability. 15 larger holes allow use of conventional discs with 6 h, 6 + 1 h, 9 h and 15 h. Suitable for narrow shroud machines.

Holes: 25
Dimensions: 200 mm
Suitable for: Rupes Machines

Mirka 25 Hole Backing Pad - 200mm

SKU: GPAD8295895111

This 200 mm (8") grip net backing pad is suitable for Rupes machines. Rupes machines require 8 screw holes. The pad is ready to be assembled.

Hardness: Medium
Holes: 89
Dimensions: 200 mm
Suitable for: ROS2-850CV

Mirka 89 Hole Medium Backing Pad - 200mm

SKU: GPAD8295885111

This 200 mm (8 in.) Net Backing Pad with 89 holes is unique and designed only for Mirka ROS2-850CV two-handed random orbital sander.

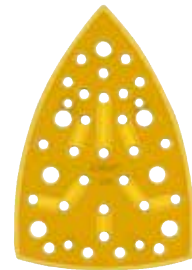

Hardness: Medium
Holes: 32
Dimensions: 100 x 152 x 152 mm
Suitable for: DEOS Delta

Mirka Medium Backing Pad 32 Hole - 100 x 152 x 152mm

SKU: GPAD8292663011

Backing pad suitable for the Mirka DEOS Delta sander.

Hardness: Medium
Holes: 54
Dimensions: 81 x 133 mm
Includes: Pad protector & user instructions

Mirka Medium Backing Pad - 81 x 133mm - Pneumatic

SKU: GPAD8295350111

Grip backing pad for pneumatic orbital sanders.

Hardness: Medium
Holes: 56
Dimensions: 81 x 133 mm
Includes: Pad protector & user instructions

Mirka Medium Backing Pad - 70 x 198mm

SKU: GPAD8295380111

Velcro backing pad for orbital sanders. Delivered with one pad protector and user instructions.

Dimensions: 150 mm
Suitable for: 12230 Work Quip Sander

All Festool pads are designed with dust extraction as a primary consideration, so you'll work cleaner, produce a better finish and significantly extend the life of your abrasives and pads.

Festool pads feature the StickFix hook and loop design for quick and efficient abrasive changes and enable re use of partially used abrasives.

Hardness: Soft
Use: Festool net abrasives
Pack Size: Pack of 1

Festool Protection Pad

Soft interface pad with lightweight foam which adapts to curves and contoured surfaces delivering a consistent finish.

Size	Use	SKU	Price
125 mm	ETS 125, RO 125	GPAD203344	
150 mm	ETS 150, RO 150	GPAD203343	

Hardness: Soft
Diameter: 150 mm
Materials: Heat resistant MPE foam
Features:

- Consistent finishing results
- Uniform wearing
- Extended pad life

Festool Soft Interface Pad - 150mm

An extremely soft pad, the foam interface pad allows the abrasive to float on the surface, producing smoother results on delicate profiles and contours. Because sanding pads will eventually fatigue and require replacement, it is advisable to keep a fresh pad at hand to avoid a break in work.

Height	Use	Pack Size	SKU	Price
5mm	ETS 150/3 E, ETS 150/5 E, RO 150 FE	2	GPAD203348

Festool Delta Protection Pad

SKU: GPAD203347

Soft interface pad for use with Festool delta net abrasives. All Festool pads are designed with dust extraction as a primary consideration, so you'll work cleaner, produce a better finish and significantly extend the life of your abrasives and pads. Festool pads feature the StickFix hook and loop design for quick and efficient abrasive changes. Ideal for use on surfaces which generate a lot of dust.

Hardness: Soft
Dimensions: 80 x 133 mm
Use: Festool net abrasives
Suitable for: RTS 400 REQ
Pack Size: Pack of 2

Festool Protection Pad 80 x 133mm

SKU: GPAD203346

The lightweight foam adapts to curves and contoured surfaces delivering a consistent finish.

Hardness: Soft
Dimensions: 80 x 133 mm
Suitable for: RTS 400 REQ
Pack Size: Pack of 2

Festool Interface Pad 80 x 133mm

SKU: GPAD490160

Foam interface pad for sanding delicate surfaces such as profiles and contours. Narrow, rectangular pad for fast and efficient sanding of narrow stock, edges, and frame components.

Mirka's pad savers are designed to protect the backing pad from wear and tear, when sanding aggressively and continuously with net products. These cost effective pad savers, placed between the backing pad and the sanding disc, should be changed regularly. The pad savers prolong the life of the backing pad.

Pad saver user instruction:

Match the pad saver hole pattern to the backing pad by locating the matching holes on the pad saver to the locating spots on the backing pad. Apply and press the pad saver firmly to the backing pad. Fasten the abrasive to the pad saver. Place the sander on the object to be sanded and then start the sanding machine.

Cartec 3000 Diamond Cut Compound

Diamond Cut 3000 is an extreme cutting compound with a speed ability to bring up gloss almost instantly, even on ceramic and scratch resistance clear coat, gel coats and any other surface.

It removes all sanding marks, overspray, orange peel, paint runs and dust easily. Premium compound for saving time and materials.

No water is needed to use the Diamond Cut 3000 due to its self-lubricating formula. This compound does not contain any fillers or silicones and is ammonia free. After Diamond Cut 3000 we recommend the Final Cut 9000 and/or Ultra Finish 12000 for the best Finish.

Page 65

Cartec 4800 Compound Paste

Compound 4800 is a silicon-free paint renovator with fast-cutting action and a high gloss finish. It is very suitable for polluted, oxidised and dull paints. It quickly removes painting defects such as deep scratches (P1500), runners/sags, orange peel and overspray. No water is needed for processing.

Built in lubricants avoid product drying on the pad.

Size	SKU	Price
400 g	GPOLCC4800400G	
3 kg	GPOLCC48003KG	

Helps Remove:

- Deep scratches
- Runs / sags
- Orange peel
- Overspray

Free of: Silicones

Cartec 5000 Compound

Compound 5000 is a silicone-free paint renovator with fast cutting action and a high gloss, hologram free finish. It is ideal for rectifying polluted, oxidised and dull paints. It quickly removes paint defects such as deep scratches (P1500), runs, orange peel and overspray.

No water is needed due to Compound 5000's self-lubricating formula. This compound does not contain any fillers or silicones and is ammonia free.

After Compound 5000 we recommend the Final Cut 9000 and/or Ultra Finish 12000 for the best Finish.

Cartec 9000 Final Cut Compound

Final Cut 9000 is a high precision “one step” finishing compound / polish. Perfect for removal of minor scratching, swirl mark, marring, buffer marks and holograms.

Final Cut 9000 leaves a hologram free, superb high gloss finish in a short amount of time. Can be used with rotary or orbital machines, with orbital giving a quick and easy hologram free finish.

This compound does not contain any fillers or silicones and is ammonia free.

Easy to use, no-dust formula. Use after Diamond Cut 3000 to remove holograms, or as a standalone compound to remove light holograms and clear coat scratches.

Size	SKU	Price

Page 65

Cartec 12000 Ultra Finish Compound

Ultra Finish 12000 is the final polishing stage in our compounding system.

The Finish 12000 consists of high quality oils and unique micro-abrasive particles which guarantee an extremely deep gloss, totally swirl and hologram free.

Due to its unique formulation, the Finish 12000 is extremely easy to use and ensures a completely hologram free finish.

Use after Compound 5000 to remove holograms or after Diamond Cut 3000 and Final Cut 9000 to add even more gloss for the perfect finish.

This compound does not contain any fillers or silicones and is ammonia free. Easy to use, no-dust formula.

Farécla G3 Advanced Liquid Compound

SKU: GPOLAG3-1400

Advanced G3 Liquid is a one-step system that provides a fast cutting action and a high gloss finish. It combines all the reliability and other advantages of G3 Paste with a reduced clean up time when compounding by machine. It provides improved versatility, quality and speed to final finish verses competitive products.

Size: 1 Litre

Features:

- Can be used on fresh and cured paintwork
- Removes P1500 abrasive paper marks without the use of fillers
- Improved cutting action quickens the process
- Less water is required during use which reduces throw-off

Farécla G3 Regular Grade Paste Compound

G3 Regular Grade Paste Compound is recommended for use on OEM and re-finish paint systems.

Use with a G Mop 6" Wet Use Compounding Foam (GMC606) for ease of use and low splatter.

SKU	Size	Price
GPOLG3-1000	1 kg	
GPOLG3-3000	3 kg	

Apply by: Hand or machine

Features:

- Reliable Cut
- High Gloss System
- Permanent Finish
- Silicone Free

G-Mop Black Finishing Foam
See page 65

Farécla G3 Fine Finishing Compound

SKU: GPOLG3-F101

G3 Fine Finishing Compound offers rapid and permanent removal of minor surface defects, holograms and swirl marks from all modern paint systems. Superb on dark colours.

G3 Fine is ideally applied using Farécla G Mop Finishing Foam, engineered in tandem with the compound to provide optimum performance. For extra shine, finish with G3 Glaze Gloss Enhancer and the G Mop Finishing Foam. A wipe over with a G Mop Finishing Cloth will remove any remaining residue.

Features:

- Quickly removes P3000 or finer sanding marks
- Swirls and holograms are eliminated permanently
- Restores lightly oxidised paint work and dull surfaces
- Can be used by machine with foam as well as by hand
- Easy clean up, minimal splatter or dusting

G-Mop Black Finishing Foam
See page 65

Farécla G6 Rapid Grade Paste Compound

SKU: GPOLCHFA02005

G6 Rapid Grade Paste Compound is for use on OEM, Refinish Medium Solids and Air Dried 2k paint systems (well cured).

Size: 1 Litre

Features:

- Removes P1500 abrasive marks quickly and easily with no fillers
- Silicone free

Farécla G Scuff - For Paint Preparation

SKU: GPOLGS-L

Used for preparing a surface before painting, to provide an even key for optimum paint adhesion. It minimises rogue scratches and its fast action formula cleans away all wax and grime.

Size: 1 Litre

Features:

- Abrades to approximately P1200
- Abrasive content breaks down evenly
- Very easy clean up with no greasy residue left

Size: 250 ml tube
Suitable for:

- Car bodywork
- Boats
- Fibreglass

Gelson One Shot Paste

SKU: GPOLOZ40350

The white One-Shot abrasive paste in a tube is a fine creamy abrasive paste suitable for polishing polyurethane enamels, boats, fiberglass surfaces and lacquered doors.

Size: 500 ml
Apply by: Hand or machine
Features:

- Silicone & free Ammonia free

Gelson 1544 Extra Fine Liquid Compound

1870 Super Fine Shine	Ultra fine anti-holograms rubbing compound for special high gloss and depth of colour polishing. Suitable for dark colours.	GPOLOZ40420	
1890 Rapid Cut Liquid	Gelson cream abrasive paste, grain bucket, for applications in the machine during polishing marine gel-coats or varnish.	GPOLOZ40440	
1898 Super Cut Liquid	Super-coarse liquid rubbing compound for polishing of polyurethane clear coats (cars, trucks, boats) and other automotive paints.	GPOLOZ40470	

Gelson Compounds

Size: 5 Litres
Suitable for: Lubricant for denibbing & buffing

Gelson LC200 Lubricant / Detergent

SKU: GPOLOZ450501

Multi-use lubricant, detergent and polisher. Biodegradable and non-flammable.

Size: 1 Litre
Features:

- Removes P1500 abrasive marks quickly and easily with no fillers, waxes, silicones or oils
- Water based

Juice Polish Super C Cut

SKU: GPOLJPSCC1L

Uses advances in abrasive technology to increase speed and quality of paint finish for all automotive, industrial and marine applications. Its water based formula makes it easy to use and keeps clean up to a minimum.

Size: 1 Litre
For use with:

- Random orbital tool
- Gear driven tool
- Rupes foam, wool, & microfiber pads

Rupes High Performance Compound - D-A

The result of extensive testing, the D-A range works superiorly. The proprietary formula developed and blended in-house by Rupes is designed to perform with Dual Action polishers, including both large-stroke random orbital and gear-driven tools. Paired with Rupes colour co-ordinated foam, wool, and microfiber pads, D-A will exceed expectations.

Grade	Description	SKU	Price
Coarse	D-A Coarse is the latest high-performance compound from Rupes designed for maximum efficiency. This fast cutting compound is ideal for users who want quick defect removal and smooth user experience on every type of paint.	GPOL9.DACOARSE	
Fine	D-A Fine combines noticeable cutting performance with impressive finishing. The proprietary formula developed and blended in-house is designed to perform with Dual Action polishers. D-A Fine delivers excellent defect removal, incredibly high finish quality, and a super-easy wipe off for excellent user experience. DA-Fine represents the perfect second polishing step after D-A Coarse on virtually every type of painted, gelcoat, or varnished finish or as a stand-alone solution for light polishing needs. 3M Finesse-it Buffing Pad

- Provides soft, smooth surface for applying 3M Finesse-it polishes
- Repairs coatings without repainting
- 3M Hookit attachment system holds pad securely and provides quick pad change-out

Attachment Type: Hook & loop
Industries: AOEM, Paint Preparation
Material: Foam
Max Rpm: 12,000
Product Form: Buffing Pad
Use: Designed to achieve satin, semi or high gloss finishes on wood, automotive, marine, aerospace coatings

Colour	Diameter	Description	SKU	Price
Orange w/ black back	75mm	Waffle face provides sufficient contact surface and minimizes heat buildup	GPAD3M02648B	
Orange w/ white back	82.5mm	Pads combine with buffers, random orbital tools, and variable speed polishers to produce desired final finish	GPAD3M02648	

3M Finesse-it Roloc Finishing Pad

SKU: GPAD3M14736

The 3M Hookit surface is made with mushroom headed hooks that hold the buffing pad in place.

- Enables use of 3M Hookit buffing pads with the 3M Roloc backup pad
- Hook-and-loop provides quick pad changes
- Compressed for conformability
- Roloc attachment system provides fast pad change for multi-step finishing processes

For use with: Rotary machine only
Material: Made with soft foam for greater conformability.
Attachment Type: Hookit™
Density Rating: Firm
Diameter: 76.2 mm
Hook Type: 2, 3
Max OPM: 10,000
Max Rpm: 6,000
Thickness: 25.4 mm
Thread Size: Roloc™ TR

3M Perfect-It Foam Polishing / Compounding Pads

Type: Waffle

	Colour	Type	Description	Dimensions	SKU	Price
	Black	Quick Connect	A fine pore soft foam pad. This foam pad quickly removes compound swirls and minor defects in both aftermarket and OEM paint.	203mm	GPAD3M5707	
	Blue	Quick Connect	Helps eliminate swirl marks on painted surfaces, even on difficult dark colored cars. The waffle face holds liquid polish and applies polish evenly without releasing excess polish that may cause ripples in the finish.	203mm	GPAD3M5708	
	Green	Quick Connect	For refining sand scratches, slow speed polishing and denibbing for high performance at every step of the compounding process.	216mm	GPAD3M50874	
	White	Hook & Loop	Has an aggressive cutting action which will remove deeper scratches, serious swirl marks and heavy oxidation when used in conjunction with heavy polishing compounds. Pad runs smooth and provides long life.	203mm	GPAD3M5737	

3M Perfect-It Wool Compounding Pad

SKU: GPAD3M5753

High Performance 100% Wool Compounding Pad. Refines P1200 and finer sand scratches and other paint surface defects.

Material: Wool
Attachment Type: Quick Connect
Max RPM: 2000
Overall Diameter: 228.6 mm
Product Form: Buffing Pad
Sided: Double

Autoglym Buff Pad

Size: 160 mm
Use with: Paint Pro Renovate

Colour	Description	SKU	Price
White - Medium	This medium aggressive foam buff pad is best when used with Autoglym Paint Pro Renovate. Durable and hard wearing for moderate renovation work.	GPADAUPM160C	
Black - Soft	This soft foam buff pad with to be used with Autoglym Paint Pro Refine. A very soft and easy to use foam buff pad ideal for light renovating or finishing gloss.	GPADAUPS160C	

- Features:**
- Premium European grade soft black foam
 - Open cell structure for improved air flow and cooler running temperatures
 - Results in excellent high gloss professional finish
 - Recessed backing for extra edge protection
 - Hook and Loop Attachment System

Farécla G-Mop Black Finishing Foam

The G Mop Finishing Foam is a premium European grade foam. It has an open cell structure for improved air flow which lowers running temperature. G Mop 3" Finishing Foams are ideal for small and spot repair areas. It is a soft foam to help polish to a high gloss and professional finish. Features hook and loop system.

Size	SKU	Pack Size	Price
77 mm (3")	GPADGMF301	Pack of 5

- Features:**
- Premium European Grade Foam
 - Closed Cell Structure for Less Mess
 - Can Be Used With Water
 - Excellent Properties for Cut & Gloss
 - Hook and Loop Attachment System

Farécla G-Mop Compounding Foam

The G Mop Yellow Compounding Foam pad is constructed from a premium European grade foam.

It has a closed cell structure which means there is minimal throw off (mess) and can be used with water. G Mop 3" Yellow Compounding Foams are ideal for small and spot repair areas. Excellent properties for cut and gloss. Features hook and loop system.

Size	SKU	Pack Size	Price
77 mm (3")	GPADGMC312	Pack of 5	
150 mm (6")	GPADGMC612	Pack of 2	

- Dimensions:** 150 mm
Includes:
- G-Mop Compound Head (AGM-CF)
 - Backing Plate (AGM-BP14)

Farécla Advanced G-Mop Compound Head + Backing Plate

SKU: GPADAGM-14

The Advanced G Mop Compound Head & Backing Plate is a 150 mm general use foam applicator pad with dual layer foam for faster cutting action.

- Volume Capacity:** 60 ml
Use: For finessing operations with abrasives
Remember to clean the disc in between sanding operations, by gently running the disc against the damper head.

Mirka Finessing Damper

SKU: GPOLMIR9190101001

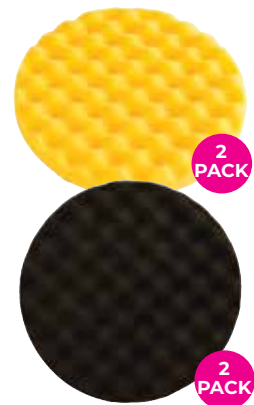

Dispenses quickly and neatly an appropriate amount of liquid to the surface. By using it, you'll get less excess and it helps to avoid skin contact with harmful liquids.

- Thickness:** 25 mm
Materials: Foam
Pack Size: Pack of 2

Mirka Waffle Polishing Foam Pad

Colour	Diameter	Description	SKU	Price
Yellow	85 mm	Medium density hardness with durable reticulated foam providing excellent elasticity. The waffle shape has an optimized pattern which improves the cutting performance and reduces the surface temperature during the polishing process. Suitable for all kinds of polishing processes.	GPAD7993408521	
	150 mm		GPAD7993415021	
Black	85 mm	A reticulated waffle shape structured foam pad for hologram removal gives an excellent finishing on both fresh and fully cured paint works. The good balance between elasticity and density in the foam contributes to the final result.	GPAD7993108521

Ozgel Foam Pad - 80mm

SKU: GPAD430

Ozgel Foam Pad is a velcro pad with a hex face and centre ring.

Size: 800 mm
Type: Velcro
Colour: Yellow

2 PACK

D-A Fine High Performance Cut Foam Pad

Delivers an effective rate of defect removal and capability for high-gloss finishing on most paint systems. Pair with RUPES DA-FINE polishing compound for moderate to fine defect removal, paint refinement, or final finishing after heavy compounding steps. This new pad provides the same great performing foam material as the current random orbital yellow foam, expanded to also work with gear-driven orbitals, just with a more vibrant shade of yellow.

Each pad is individually packaged in a new metallic film flow pack which provides the ultimate in protection for pads, ensuring your pad is factory-fresh when you're ready to use it.

Use: Use with the D-A High Performance Cut Polishing Compound

Grade: Fine

Colour: Yellow

Pack Size: Pack of 1

Features:

- Fully sealed
- Rip & tear resistant
- Complete UV protection
- Prevents dust
- Stops exposure to moisture & humidity

Size	SKU	Price
150mm	GPAD9.DA150M	
180mm	GPAD9.DA180M	

D-A Fine High Performance Cut Foam Pad

Specially designed to be used with both random orbital and gear-driven tools. The unique open-cell all new foam material removes mild to severe defects from most paint systems. When paired with RUPES DA-COARSE compound provides improved cutting and finishing ability. This new pad combines the best aspects of the previous blue and green foams, with an increased durability.

Each pad is individually packaged in a new metallic film flow pack which provides the ultimate in protection for pads, ensuring your pad is factory-fresh when you're ready to use it.

Use: Use with the D-A High Performance Cut Polishing Compound

Grade: Coarse

Colour: Blue

Pack Size: Pack of 1

Features:

- Fully sealed
- Rip & tear resistant
- Complete UV protection
- Prevents dust
- Stops exposure to moisture & humidity

Diameter: 75 mm
Max Rpm: 18,000

3M Roloc Disc Pad

SKU: GPAD3M45091

The Roloc Disc Pad optimizes the performance of the Roloc discs by providing the right backup system and a secure attachment for grinding applications. It also saves time by eliminating the need to align edges of the disc with the disc pad - the screw aligns the disc, making disc changes quick and easy.

Connecting Thread: M14
Use: Festool
Pack Size: Pack of 1

Festool Foam Polishing Pad

Fits a range of polishing accessories to achieve an ideal polished finish.
