

# Maintaining your waterbourne coating.

It is important that you are aware of how to care for and help maintain the appearance of your Waterbourne Coating (kitchens, panelling etc). To ensure the longevity of the appearance of your coating, please take note of the following information.

**NOTE: NO ABRASIVE TYPE CLEANERS OR POLISHES TO BE USED**

## **General Regular Cleaning**

This is best carried out with a sponge or a soft cloth and any household cleaning detergents / products.

Felt tipped marker damage should be removed using methylated spirits within 48 hours.

**Abrasive cleaning agents must NOT be used.**

## **Mechanical Damage**

Should the panels be physically scored, chipped or scraped in any way please consult the manufacturer for the best method of repair / replacement.

Scratch damage can usually be repaired simply by application of the top coat (available from the manufacturer) using a fine camel brush.
