

## Mirka Cordless - Where convenience meets control.

Mirka cordless tools are light, ergonomic and optimised for spot repair and finessing. Ideal for professionals who appreciate the convenience of cordless. Incredibly nimble, they are quiet, small and need very low maintenance thanks to the brushless motor. Cordless tools are delivered with two 2.5 Ah 10.8V Li-ion batteries and a charger. 5Ah 10.8V Li-ion batteries are available to buy separately.

With variable speed on the trigger you get easy control of the process by touch. Mirka's cordless tools are top of the range models with Bluetooth connectivity, which means additional options for digitally controlling the process via the myMirka® app. The latest features are RPM range management and auto-stop function (in-app purchases). It's never been easier to standardise your spot repair or finessing process.

### Mirka Cordless Sanders

Move freely without getting tangled up in cords or hoses. Easy and efficient spot repairs with Mirka's cordless sanders.

The small, lightweight sanders have brushless motors. The ergonomic design has been a priority to ensure that the tools can comfortably be used for long periods without fatigue.

Cordless sanders are more energy efficient than pneumatic tools. They do not require oiling, which removes the risk of contamination. The sanders deliver consistent performance up to 16 hours in spot repair use. The 10.8V Li-ion battery charges in 45 minutes – so with two batteries, there is no downtime.

Mirka AOS-B has a 3 mm orbit, whereas Mirka AROS-B has a random 5 mm orbit for more efficient stock removal. Mirka's state-of-the-art cordless tools have Bluetooth connectivity. Download the myMirka® app to make use of advanced features such as auto-stop function and RPM range management (in-app purchases).

#### Features and benefits

- Small and ergonomic, very comfortable to use
- Quick start and adjustable rpm up to 8000
- Low noise levels and no disturbing cable or hose
- Long usage time, up to 16 hours, for spot repairs
- Economic to use – energy efficient and quick-charging battery
- Easy attachment of backing pad thanks to Quick lock -system

# Easy Spot Repair Solution

## Spot repair with Mirka® AOS-B sander and the Mirka® AROP-B cordless polisher

1 For removing of defect use Novastar® SR and Mirka® AOS-B 130NV sander.

2 Always use water when sanding, apply water to both abrasive and the defected area. Use Mirka damper for best result.

3 Lightly press with the sander and sand for 2–3 seconds.

4 Wipe clean and check the surface. Repeat step 3 if needed. Use Mirka soft micro fibre cloth.

5 For polishing and finalising use the cordless Mirka® AROP-B 312NV polisher, Mirka® Yellow waffle pad and Polarshine® 12.

6 Apply a small amount of **polish** on the polishing pad or directly to the defected surface area.

7 Polish by gently pressing. Use at moderate speed. Wipe clean and check the surface. Repeat if necessary.

8 Use Mirka soft micro fibre cloth for final cleaning.

## Mirka Cordless Polishers

Mirka ARP-B and Mirka AROP-B are ideal for professionals; light, ergonomic and optimised for spot repair polishing. Incredibly nimble, they are easy to move around – with no cord to get tangled or air supply that can get contaminated.

Quiet, small and very low maintenance thanks to the brushless motor. Mirka ARP-B 300NV is a rotary polisher with a brushless motor and a 77 mm backing pad. The random orbital polisher Mirka AROP-B 312NV is similarly brushless with 77 mm backing pad and it has a 12 mm orbit. Mirka's state-of-the-art cordless tools have Bluetooth connectivity. Download the myMirka® app to make use of advanced features such as auto-stop function and RPM range management (in-app purchases).

## Features and benefits

- Small, light and ergonomic
- Strong and efficient – high torque and optimal rpm
- Very low noise level
- Intelligent and quick-charging battery in two sizes
- Possibility to standardise processes with the myMirka app
- Variable speed trigger – adjust speed on the go
