

#### DESCRIPTION

- Waterproof, breathable abrasion resistant Hytrel® fabric
- Wicking Coolmax® linings
- Hip-length
- Compatible with Mocean zip-in liners
- Oversized to accommodate body armor

#### FEATURES

- Full-length front zipper with dual Velcro® storm flaps, chin guard and stand-up/fold down collar
- Exterior pockets with zipper closures and storm flaps.
- Interior pen pockets
- Velcro cuffs
- Reflective piping on front and sleeves
- Reflective tape on back cape
- Elasticized waist

#### CUSTOMIZE

- Embroidered name on chest
- Silkscreen text on back

#### Supplex® with Teflon HT®

100% Nylon

Our 3.8 oz/yd Nylon constructed in a high count 2-ply weave has the optimum firm hand required for high-energy pursuits but without the heavy 3-ply construction usually found in that type of apparel. All tests indicate that high count 2-ply is as strong as 3-ply. In addition, our Supplex® is treated with Du Pont Teflon HT®, the most effective, longest-lasting water and stain repellent available, allowing us to offer you extremely versatile apparel that is durable, lightweight, easy care, water-resistant, windproof, and stain and fade resistant.

### Hytrel® with Teflon HT®

100% Nylon

Hytrel® is a monolithic film that, in contrast to microporous films, does not have tiny holes in it that become clogged. When laminated onto Supplex® nylon, the polyether-ester block copolymers that form Hytrel give the fabric very desirable characteristics for high performance. The two most outstanding features are the high Mullen waterproof ratings and the MVTR/Moisture Vapor Transmission Breathability Rates. Also, the face of our Hytrel fabric system is coated with Du Pont Teflon HT®, the most effective, longest-lasting water and stain repellent available. Simply put: you stay dry inside and out!

### Coolmax Mesh

100% Nylon

A high-tech, warp knit tricot mesh made with tetra (4)-channel polyester fibers, Coolmax quickly wicks perspiration away from your skin allowing it to evaporate to keep you dry and comfortable. For the wicking process to occur, Coolmax must be in close contact with your perspiration. MOCEAN's fit and design addresses that to perfection.
