## Adapter:

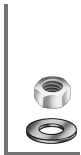

- 1) Remove the screw connecting the chair rear cross-member to the rail.
- 2) Run the screw through the adapter and tighten it down where old screw was removed.

## Rubber Isolators:

1) Attach 4 rubber isolators to the bottom of the seat frame. Use a wrench to tighten them down.

2) Use the 2 remaining isolators to level the front of the seat. Use sticky-back Velcro or glue for adhesive.

For setup help, contact The Guitammer Company.
