- Fits standard bike bottle cages & cup holders

Black Water Bottle Model: BWB-IN1B

Made in Taiwan

# **INSTRUCTIONS**

Prior to initial use, clean the inside of the bottle, cap and mouthpiece with warm, soapy water, then rinse with clean water and dry.

The water bottle should be cleaned after each ride or activity.

### **Cleaning Your Water Bottle**

Unscrew the bottle cap and make sure the mouthpiece and valve are open so water can flow through as you wash them. Wash the bottle and cap with warm, soapy water then rinse with clean water and dry. Avoid using abrasive cleaning tools or materials as this can potentially damage the bottle.

If cleaning the water bottle in a dishwasher, put the bottle in the top rack of the dishwasher. Avoid high-heat settings as this can potentially warp the plastic of the bottle.

#### **Using Your Water Bottle**

Fill bottle with water or drink, do not exceed the threaded area of the neck.

Screw on the cap fully for a secure and tight fit. Ensure mouthpiece on cap is pushed down, so it is closed.

To drink, pull up the mouthpiece to open the valve and press the 'thumb' indents on bottle sides to push out the water from the bottle. To close, push down the mouthpiece to seal the valve.

The sports carry loop is supplied as an optional extra - should

carry loop, unscrew the bottle cap and then insert the large loop around the threaded bottle neck and push down fully, then screw on the cap.

#### **WARNING:**

Choking hazard. Small parts, not for use for children under 5 years old.

Do not use harsh cleaners or bleach to clean the bottle.
