

# SAFETY DATA SHEET

Vibe Pro Refill - Linen Breeze

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200

1. Identification	
Product identifier	
Product name	Vibe Pro Refill - Linen Breeze
Product number	VIBE-PRO-LIN-US
Internal identification	
Container size	3.4fl oz
Recommended use of the cher	nical and restrictions on use
Application	Air freshener
Uses advised against	Use only for intended applications.
Details of the supplier of the sa	fety data sheet
Supplier	Vectair Systems Inc. 2095 Spicer Cove, Covington Way Distribution Centre, Memphis, TN 38134, USA +1 901 373 7818 info@vectairsystems.com
Contact Person	Product development
Emergency telephone number	
Emergency telephone	Vectair Systems Inc +1 901 373 7818 (during normal office hours)
National emergency telephone number	INFOTRAC +1 800 535 5053 INTERNATIONAL +1 352 323 3500
2. Hazard(s) identification	
Classification of the substance	or mixture
Physical hazards	Not Classified
Health hazards	Skin Sens. 1 - H317
Environmental hazards	Not Classified
Classification in accordance with Directive 1907/2006/EEC	
Label elements	
Hazard symbols	

Warning

Hazard statements	H317 May cause an allergic skin reaction.
Precautionary statements	<ul> <li>P280 Wear protective gloves.</li> <li>P280 Wear eye protection.</li> <li>P302+P352 If on skin: Wash with plenty of water.</li> <li>P333+P313 If skin irritation or rash occurs: Get medical advice/ attention.</li> <li>P362+P364 Take off contaminated clothing and wash it before reuse.</li> <li>P501 Dispose of contents/ container in accordance with national regulations.</li> </ul>
Contains	4-tert-butylcyclohexyl acetate, citral, p-methoxybenzyl acetate, 5-(2,2,3-Trimethyl-3- cyclopentenyl)-3-methyl-pentan-2-ol

### Other hazards

This product does not contain any substances classified as PBT or vPvB.

CAS number: 141-97-9         10-30%           Propylene Glycol         10-30%           CAS number: 57-55-6         10-30%           Benzyl acetate         10-30%           CAS number: 140-11-4         10-30%           4-tert-butylcyclohexyl acetate         5-10%           CAS number: 32210-23-4         5-10%           (Z)-3,4,5,6,6-pentamethylhept-3-en-2-one         1-5%           CAS number: 81786-73-4         1-5%           Methyl N-methylanthranilate         1-5%           CAS number: 81786-73-4         1-5%           CAS number: 85-91-6         1-5%           triethylene glycol         1-5%           CAS number: 112-27-6         1-5%           A mixture of: cis-tetrahydro-2-isobutyl-4- methylpyran-4-ol; trans-tetrahydro-2-isobutyl-4- methylpyran-4-ol; CAS number: 63500-71-0         <1%	3. 4. First-aid measures	
Description of first aid measured	res
General information	Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.
Ingestion	Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel.
Skin Contact	It is important to remove the substance from the skin immediately. In the event of any sensitization symptoms developing, ensure further exposure is avoided. Remove contamination with soap and water or recognized skin cleansing agent. Get medical attention if symptoms are severe or persist after washing.
Eye contact	Rinse with water. Get medical attention if any discomfort continues.
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.
Most important symptoms and	d effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	May cause sensitization or allergic reactions in sensitive individuals.
Skin contact	May cause skin sensitization or allergic reactions in sensitive individuals.
Eye contact	No specific symptoms known. May be slightly irritating to eyes.
Indication of immediate medic	al attention and special treatment needed
Notes for the doctor	Treat symptomatically. May cause sensitization or allergic reactions in sensitive individuals.
5. Fire-fighting measures	

Extinguishing media

Suitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Special hazards arising from the	he substance or mixture
Specific hazards	Containers can burst violently or explode when heated, due to excessive pressure build-up.
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.
Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves will provide a basic level of protection for chemical incidents.
6. Accidental release measure	S
Personal precautions, protecti	ve equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Avoid contact with skin and eyes.
Environmental precautions	
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground.
Methods and material for cont	ainment and cleaning up
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small Spillages: Collect spillage. Large Spillages: Absorb spillage with non-combustible, absorbent material. The contaminated absorbent may pose the same hazard as the spilled material. Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon as possible. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.
7. Handling and storage	
Precautions for safe handling	
Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers.

Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.
Conditions for safe storage	e, including any incompatibilities
Storage precautions	Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage.
Storage class	Chemical storage.
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.
8. Exposure controls/Pers	onal protection
Control parameters	

#### Control parameters

Occupational exposure limits

#### Benzyl acetate

Long-term exposure limit (8-hour TWA): ACGIH 10 ppm 61 mg/m<sup>3</sup>

A4

ACGIH = American Conference of Governmental Industrial Hygienists. A4 = Not Classifiable as a Human Carcinogen.

#### Ingredient

#### Exposure controls

### Protective equipment

Appropriate engineering controls	Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients.
Eye/face protection	Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.
Hand protection	It is recommended that chemical-resistant, impervious gloves are worn. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with OSHA 1910.138 and be demonstrated to be impervious to the chemical and resist degradation. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.
Other skin and body protection	May cause skin sensitization or allergic reactions in sensitive individuals. Wear appropriate clothing to prevent repeated or prolonged skin contact.
Hygiene measures	Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.
Respiratory protection	Ensure all respiratory protective equipment is suitable for its intended use and is NIOSH approved. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with OSHA 1910.134. Full face mask respirators with replaceable filter cartridges should comply with OSHA 1910.134. Half mask and quarter mask respirators with replaceable filter cartridges should comply with OSHA 1910.134.
Environmental exposure controls	Keep container tightly sealed when not in use.

9. Physical and chemical properties		
Information on basic physical and chemical properties		
Appearance	Liquid.	
Color	Colorless.	
Odor	Characteristic.	
Odor threshold	Not determined.	
рН	Not determined.	
Melting point	Not determined.	
Initial boiling point and range	>100 °C	
Flash point	>100 °C	
Evaporation rate	Not determined.	
Evaporation factor	Not determined.	
Flammability (solid, gas)	Not applicable.	
Upper/lower flammability or explosive limits	Lower flammable/explosive limit: 1 Vol % Upper flammable/explosive limit: 12.6 Vol %	
Other flammability	Not applicable.	
Vapor pressure	0.1 hPa @ 20°C	
Vapor density	Not determined.	
Relative density	Not determined.	
Bulk density	1.008 g/cm <sup>3</sup>	
Solubility(ies)	Not miscible or difficult to mix.	
Partition coefficient	Not determined.	
Auto-ignition temperature	Product is not self igniting.	
Decomposition Temperature	Not determined.	
Viscosity	Not determined.	
Explosive properties	Product does not present an explosion hazard.	
Explosive under the influence of a flame	Not considered to be explosive.	
Oxidizing properties	Not determined.	
VOC Switzerland Content	80.40%	
Organic solvents	33.9%	
10. Stability and reactivity		
Reactivity	There are no known reactivity hazards associated with this product.	
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.	

Possibility of hazardous reactions	No potentially hazardous reactions known.
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.
11. Toxicological information	
Information on toxicological ef	fects
<u>Acute toxicity - oral</u> Notes (oral LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - dermal Notes (dermal LD <sub>50</sub> )	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Notes (inhalation LC <sub>50</sub> )	Based on available data the classification criteria are not met.
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitization Respiratory sensitization	Based on available data the classification criteria are not met.
Skin sensitization Skin sensitization	May cause skin sensitization or allergic reactions in sensitive individuals.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	Contains a substance which may be potentially carcinogenic. IARC Group 3 Not classifiable as to its carcinogenicity to humans.
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Reproductive toxicity - development	Based on available data the classification criteria are not met.
Specific target organ toxicity - STOT - single exposure	single exposure Not classified as a specific target organ toxicant after a single exposure.
Specific target organ toxicity -	repeated exposure
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.
Aspiration hazard Aspiration hazard	Based on available data the classification criteria are not met.

General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	May cause sensitization or allergic reactions in sensitive individuals.
Skin Contact	May cause skin sensitization or allergic reactions in sensitive individuals.
Eye contact	No specific symptoms known.
Route of exposure	Ingestion Inhalation Skin and/or eye contact
Target Organs	No specific target organs known.
Medical considerations	Skin disorders and allergies.
12. Ecological information	
Ecotoxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.
Toxicity	Based on available data the classification criteria are not met.
Persistence and degradability	
Persistence and degradability	The degradability of the product is not known.
Bioaccumulative potential	
Bio-Accumulative Potential	No data available on bioaccumulation.
Partition coefficient	Not determined.
Mobility in soil	
Mobility	No data available.
Other adverse effects	
Other adverse effects	None known.
13. Disposal considerations	
Waste treatment methods	
General information	The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.
Disposal methods	Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labeled with their contents. Incineration or landfill should only be considered when recycling is not feasible.
14. Transport information	
UN Number	
UN No. (DOT)	Not applicable.
UN proper shipping name	

Proper shipping name (DOT) Not applicable.

#### Transport hazard class(es)

#### **DOT transport labels**

No transport warning sign required.

Packing group	
DOT packing group	Not applicable.
Special precautions for user	
DOT reportable quantity	Not applicable.
DOT TIH Zone	Not applicable.

#### 15. Regulatory information

#### **US Federal Regulations**

SARA Section 302 Extremely Hazardous Substances Tier II Threshold Planning Quantities None of the ingredients are listed or exempt.

#### CERCLA/Superfund, Hazardous Substances/Reportable Quantities (EPA)

None of the ingredients are listed or exempt.

#### SARA Extremely Hazardous Substances EPCRA Reportable Quantities

None of the ingredients are listed or exempt.

#### SARA 313 Emission Reporting

None of the ingredients are listed or exempt.

#### **CAA Accidental Release Prevention**

None of the ingredients are listed or exempt.

#### FDA - Essential Chemical

None of the ingredients are listed or exempt.

#### FDA - Precursor Chemical

None of the ingredients are listed or exempt.

### SARA (311/312) Hazard Categories

None of the ingredients are listed or exempt.

#### **OSHA Highly Hazardous Chemicals**

None of the ingredients are listed or exempt.

#### **US State Regulations**

California Proposition 65 Carcinogens and Reproductive Toxins None of the ingredients are listed or exempt.

#### California Air Toxics "Hot Spots" (A-I)

None of the ingredients are listed or exempt.

California Air Toxics "Hot Spots" (A-II) None of the ingredients are listed or exempt.

#### California Directors List of Hazardous Substances

The following ingredients are listed or exempt:

*Benzyl acetate* Present.

### Massachusetts "Right To Know" List

The following ingredients are listed or exempt:

*ethyl acetoacetate* Present.

### Rhode Island "Right To Know" List

The following ingredients are listed or exempt:

*methyl salicylate* Present.

*triethylene glycol* Present.

*Propylene Glycol* Present.

#### Minnesota "Right To Know" List

The following ingredients are listed or exempt:

*Benzyl acetate* Present.

*Propylene Glycol* Present.

### New Jersey "Right To Know" List

The following ingredients are listed or exempt:

*Benzyl acetate* Present.

Propylene Glycol Present.

### Pennsylvania "Right To Know" List

The following ingredients are listed or exempt:

*methyl salicylate* Present.

*triethylene glycol* Present.

*ethyl acetoacetate* Present.

*Propylene Glycol* Present.

### Inventories

**US - TSCA** The following ingredients are listed or exempt:

*methyl salicylate* Present.

*triethylene glycol* Present.

4-tert-butylcyclohexyl acetate
Present.
2-tert-Butylcyclohexyl acetate
Present.
ethyl acetoacetate
Present.
A mixture of: cis-tetrahydro-2-isobutyl-4- methylpyran-4-ol; trans-tetrahydro-2-isobutyl-4- methylpyran-4-ol
Present.
Benzyl acetate
Present.
5-(2,2,3-Trimethyl-3-cyclopentenyl)-3-methyl-pentan-2-ol
Present.
Propylene Glycol

Present.

#### US - TSCA 12(b) Export Notification

None of the ingredients are listed or exempt.

16. Other information	
Training advice	Only trained personnel should use this material.
Revision comments	This is the first issue.
Issued by	Compliance Lead - Vectair Systems
Revision date	9/21/2021
Revision	1
SDS No.	5522
Hazard statements in full	H317 May cause an allergic skin reaction.
