

## **PROFESSIONAL HOT EYEBROW WAX BROW PREP AND AFTERCARE**

Proper brow prep and aftercare play a crucial role in the overall outcome of the service. The correct aftercare practices will help you achieve optimal, long-lasting results.

### **Brow Care Tips For Pre & Post Brow Code Treatments:**

1.

Avoid the temptation to over-touch or rub the brow area after treatment.

2.

Avoid prolonged exposure to direct sunlight, and the use of sunbeds, saunas, steam rooms, and swimming pools for 24 hours post-treatment.

3.

Avoid using makeup and facial cleansers around the brow area 24 hours post-treatment.

4.

Avoid using any self-tanning products on the face for around two to three days on either side of the treatment.
