

ZIP HYDROTAP G4 & G5 LIMESCALE FILTER KIT FOR WORK LIGHT USAGE

Order Code 95592

The Zip disposable limescale filters are used for the removal of water hardness and include a 0.5µm water filtration stage using carbon block technology including silver ions.

The filter refines the water quality by:

- Removal of carbonate-derived hardness that generates scale.
- Reducing undesirable cloudiness, organic impurities, taste, odour and chlorine residue in the drinking water.

It protect your appliance from mineral deposits and water related aggression. The Zip disposable limescale filter cartridges can be used to reduce the incidence of limescale in any boiling water appliance.
