APPLICATION  
INSTRUCTIONS

SLOWLY REMOVE THE WAX BACKING

**Step 3**

APPLICATION  
INSTRUCTIONS

RUB THE DECAL ONTO CLEAN SURFACE

**Step 4**

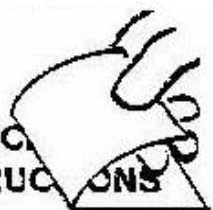

APPLICATION  
INSTRUCTIONS

SLOWLY PEEL OFF THE TRANSFER TAPE

**Step 5**

APPLICATION  
INSTRUCTIONS

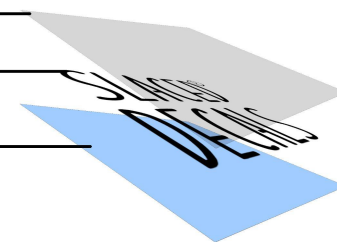

YOU'RE DONE!

**Your Vinyl Decal comes in three parts:**

Clear  
Transfer Tape

Vinyl Decal

Wax Backing  
Paper

**Step #1 CLEAN THE SURFACE.**

Super important, even if it looks clean, clean it anyway.

**Step #2 Secure the Clear Transfer Tape to the Vinyl Decal.**

Using a hard but gentle edge (like a credit card) firmly rub the Clear (medium-tack) Transfer Tape so it adheres to the Vinyl Decal.

**Step #3 Remove the Wax Backing.**

Turn over the decal and slowly peel away the Wax Backing - making sure all of the Decal stays stuck to the Clear Transfer Tape.

**Step #4 Secure the Vinyl Decal to your Clean surface.**

After placing the Decal in the desired location, use your hard edge (credit card) and firmly rub the top of the Clear Transfer Tape - securing the Decal (and temporarily the transfer tape) to the desired surface.

**Step #5 Peel off the Clear Transfer Tape**

Slowly peel the medium-tack transfer tape off the surface and the Decal, being careful to *make sure the Decal stays adhered to the surface.*
