- Extracts nitrogen from the air; no nitrogen tank necessary
- Pulls from any container, kegs are only one option
- Plug & play in 2 minutes
- Consistency with every pour
- Chills on demand to 36°F
- Works with any drink
- No need to deal with gas tanks or companies
- Compact design; can be placed over or under the counter
- Customizable color, design and tap handle
- Patent Pending

DRNX BRW BY BROOD

Nitro beverages have never been easier! Our ground breaking DRNX BRW draws directly from an internal reservoir that is chilled to 36°F, and infuses it with nitrogen extracted from the air. This means no separate nitrogen tank is required. Simply pour directly into machine or alternatively place your BiB inside. Either way, it keeps your product chilled.

FEATURES

- Dispenses both nitro and still cold brew from the same tap
- Extracts nitrogen from the air; no nitrogen tank necessary
- Plug & play in 2 minutes
- Consistency with every pour
- Chills 1.5 gallons from room temperature to 36°F in less than 30 minutes
- Works with any drink
- No need to deal with gas tanks or companies
- Compact design; can be placed over or under the counter
- Customizable color, design and tap handle
- Patent Pending
